Religion In Essence:

Religion in Essence and Manifestation Gerardus Van der Leeuw, 2014-07-14 In this book van der Leeuw discusses the horizontal path to God and the vertical paths descending from God and ascending to Him If God Himself appears it is in a totally different manner which results not in intelligible utterance but in proclamation and it is with this that theology has to deal Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Religion in Essence and Manifestation G. van der Leeuw, 1933 Religion in Essence and Manifestation Gerardus Leeuw, 1967 **The Essence of Christianity** Ludwig Feuerbach, 2023-04-23 Reprint of the original first published in 1855 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost The Essence of Religion Borden Parker Bowne, 1910

Love identifies man with God and God with man consequently it identifies man with man faith separates God from man consequently it separates man from man for God is nothing else than the idea of the species invested with a mystical form the separation of God from man is therefore the separation of man from man the unloosening of the social bond By faith religion places itself in contradiction with morality with reason with the unsophisticated sense of truth in man by love it opposes itself again to this contradiction Faith isolates God it makes him a particular distinct being love universalises it makes God a common being the love of whom is one with the love of man Faith produces in man an inward disunion a disunion with himself and by consequence an outward disunion also but love heals the wounds which are made by faith in the heart of man Faith makes belief in its God a law love is freedom it condemns not even the Religion Defined and Explained P. Clarke,P. Byrne,Scotney Evans,1993-03-12 This book examines a selection of major types of theory explaining religion religious philosophical sociological socio economic and psychological It treats of the presuppositions behind such theories and the grounds of their necessity and validity It looks at major styles in the definition of religion It argues that the case for making religion the subject of large scale theorising has not been made and contends that the explanation of religion proceeds better by concentrating on the specifics of religious history and the interconnections between religious ideas The Essence Of Religion Subhash C. Sethi,1998 The Essence of Religion Ludwig Feuerbach,1873 **The World's Religions: The Study of Religion, Traditional and New Religion** Peter Clarke,Stewart Sutherland,2002-11-01 Examines the primitive traditional non mainstream religion and also 20th century sects such as the Moonies and Scientology Looks at the nature of religion the general philosophical issues Written by international specialists **The Cambridge Companion to Friedrich Schleiermacher** Jacqueline Mariña,2005-11-10 An introduction to all the important aspects of Schleiermacher s thought in a systematic way Religion in essence & manifestation v.2 G. Paul E. Capetz, 2011-05-26 Christian Faith as Religion investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher s theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew **SOCIOLOGY OF RELIGIONS** MIR MOHAMMAD IBRAHIM, 2008-04-17

Considerable number of books and research articles have been published on the concept of religion and comparative religion But rarely has any religious scholar elaborated the contribution of different religions from sociological point of view This well researched and erudite study discusses the concept of religion with special reference to Dr Ali Shariati an eminent sociologist and Muslim scholar of Iran He brought forth the unique dimensions of the comparative study of religions The text provides a complete sociological background of various religions and stresses their contributions In addition different Islamic ideals and thoughts which need to be understood in modernist s religious perspective are discussed For example the concepts of Imamah Ijtihad Enjoining good and forbidding evil and Hajj are dealt from a sociological viewpoint Finally even the less known dimensions of Islamic ideologies are explained The book is intended for the postgraduate students of Islamic Studies Research scholars and postgraduate students of philosophy may also find the book useful In addition any reader who is interested in sociology of religion and in particular the ideology and other aspects of Islam will benefit from this book

Natural Religion and the Nature of Religion Peter Byrne, 2013-05-02 This study offers students of religion and philosophy introductory chapters concerning the concept of natural religion It holds that we can t engage in useful discussion about the

present concept of religion without a knowledge of the philosophical history that has shaped that concept This is discussed with reference to the notion of natural religion to illustrate certain aspects of deism and its legacy Originally published in 1989
