The Conversion of Britain Barbara Yorke, 2014-05-22 The Britain of 600 800 AD was populated by four distinct peoples the British Picts Irish and Anglo Saxons They spoke 3 different languages Gaelic Brittonic and Old English and lived in a diverse cultural environment In 600 the British and the Irish were already Christians In contrast the conversion of the Anglo Saxons and Picts occurred somewhat later at the end of the 6th and during the 7th century Religion was one of the ways through which cultural difference was

expressed and the rulers of different areas of Britain dictated the nature of the dominant religion in areas under their control This book uses the Conversion and the Christianisation of the different peoples of Britain as a framework through which to explore the workings of their political systems and the structures of their society Because Christianity adapted to and affected the existing religious beliefs and social norms wherever it was introduced it is the perfect medium through which to study various aspects of society that are difficult to study by any other means **Universal Salvation in Late Antiquity**

Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development **Early Peoples of Britain and Ireland: H-Z** Christopher Allen Snyder, 2008 **The Winchester**

Snyder, 2008-04-15 This book provides a fascinating and unique history of the Britons from the late Iron Age to the late Middle Ages It also discusses the revivals of interest in British culture and myth over the centuries from Renaissance antiquarians to modern day Druids A fascinating and unique history of the Britons from the late Iron Age to the late Middle Ages Describes the life language and culture of the Britons before during and after Roman rule Examines the figures of King Arthur and Merlin and the evolution of a powerful national mythology Proposes a new theory on the Anglo Saxon settlement of Britain and the establishment of separate Brittonic kingdoms Discusses revivals of interest in British culture and myth from Renaissance antiquarians to modern day Druids **Soldiering for God** John F. Shean, 2010-08-23 This new study argues that the religious attitude of

the Roman army was a crucial factor in the Christianization of the Roman world. Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith. Conditions at this time were thus ripe for the coming to power of a Christian emperor. When Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers. Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army. The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects.
