Religious Authority in an Age of Doubt Rupert E. Davies, 1968-01-01 **Religious Authority in an Age of Doubt** Rupert Eric Davies, 1968 **Islamic Religious Authority in a Modern Age** Shaheen Amid Whyte, 2024-01-22 This book situates Australian Muslim experiences of religious authority within the global context of Islam in the modern world While drawing on examples of Muslim majority states new empirical findings indicate the growing diversity of Muslim religious actors in Australia as well as the contextual realities shaping the way religious authority is legitimised and contested in democratic and authoritarian environments In particular the study challenges homogenous articulations of Islamic religious authority in unearthing new voices epistemologies and socio political factors shaping Muslim attitudes and experiences of religious authority The book fills important gaps in the field such as intra Muslim relations female religious authority digital Islam and the relationship between traditional ulama reformists and Muslim intellectuals in the West **The Changing Shape of English Nonconformity, 1825-1925** Dale A. Johnson, 1999 This book addresses several dimensions of the transformation of English Nonconformity over the course of an important century in its history It begins with the question of education for ministry considering the activities undertaken by four major evangelical traditions Congregationalist Baptist Methodist and Presbyterian to establish theological colleges for this purpose and then takes up the complex three way relationship of ministry churches colleges that evolved from these activities As author Dale Johnson illustrates this evolution came to have significant implications for the Nonconformist engagement with its message and with the culture at large These implications are investigated in chapters on the changing perception or understanding of ministry itself religious authority theological questions such as the doctrines of God and the atonement and religious identity In Johnson's exploration of these issues conversations about these topics are located primarily in addresses at denominational meetings conferences that took up specific questions and representative religious and theological publications of the day that participated in key debates or advocated contentious positions While attending to some important denominational differences **The Changing Shape of English Nonconformity 1825 1925** focuses on the representative discussion of these topics across the whole spectrum of evangelical Nonconformity rather than on specific denominational traditions Johnson maintains that too many interpretations of nineteenth century Nonconformity especially those that deal with aspects of the theological discussion within these traditions have tended to depict such developments as occasions of decline from earlier phases of evangelical vitality and appeal This book instead argues that it is more appropriate to assess these Nonconformist developments as a collective necessary and deeply serious effort to come to terms with modernity and further to retain a responsible understanding of what it meant to be evangelical It also shows these developments to be part of a larger schema through which Nonconformity assumed a more prominent place in the English culture of the nineteenth and early twentieth centuries **Religion Authority in an Age of Doubt** Rupert Eric Davies, 1968 **Secularisms in a Postsecular Age?** José Mapril, Ruy

Blanes,Emerson Giumbelli,Erin K. Wilson,2017-02-24 This volume ethnographically explores the relation between secularities and religious subjectivities As a consequence of the demise of secularization theory we live in an interesting intellectual moment where the so called post secular coexists with the secular which in turn has become pluralized and historicized This cohabitation of the secular and post secular is revealed mainly through political dialectical processes that overshadow the subjective and inter subjective dimensions of secularity making it difficult to pinpoint concrete sites agents and objects of expression Drawing on cases from South America Africa and Europe contributors apply key insights from religious studies debates on the genealogies and formations of both religion and secularism They explore the spaces persons and places in which these categories emerge and mutually constitute one another *Tradition and Modernity* David Marshall,2013-05-20 Tradition and Modernity focuses on how Christians and Muslims connect their traditions to modernity looking especially at understandings of history changing patterns of authority and approaches to freedom The volume includes a selection of relevant texts from 19th and 20th century thinkers from John Henry Newman to Tariq Ramadan accompanied by illuminating commentaries **Children in Colonial America** James Marten,Philip J Greven,2006-11-22 The Pilgrims and Puritans did not arrive on the shores of New England alone Nor did African men and women brought to the Americas as slaves Though it would be hard to tell from the historical record European colonists and African slaves had children as did the indigenous families whom they encountered and those children s life experiences enrich and complicate our understanding of colonial America Through essays primary documents and contemporary illustrations Children in Colonial America examines the unique aspects of childhood in the American colonies between the late sixteenth and late eighteenth centuries The twelve original essays observe a diverse cross section of children from indigenous peoples of the east coast and Mexico to Dutch born children of the Plymouth colony and African born offspring of slaves in the Caribbean and explore themes including parenting and childrearing practices children s health and education sibling relations child abuse mental health gender play and rites of passage Taken together the essays and documents in Children in Colonial America shed light on the ways in which the process of colonization shaped childhood and in turn how the experience of children affected life in colonial America Berkeley Journal of Religion and Theology, Vol.2, No. 2 BJRT GTU,2016-06-18 Volume 2 Issue 2 of the Berkeley Journal of Religion and Theology is a special issue honoring the work of Judith Berling and Arthur Holder Judith Berling the 4th academic dean of the Graduate Theological Union is retiring from the faculty and Arthur Holder the 6th academic dean is stepping down from the deanship of the GTU This issue brings students and colleagues of both Drs Berling and Holder to celebrate their achievements and honor their service to the GTU by engaging their work Featuring contributions by Margaret Miles Henry Kuo Lisa Dahill Ken Butigan Sandra Schneiders William Short Mary Mee Yin Yuen Jennifer Howe Peace and Riess Potterveld *Law and Faith in a Sceptical Age* Anthony Bradney,2009-10-16 Law and Faith in a Sceptical Age is an analysis of the legal position of religious believers in a dominantly secular society Great Britain is a society based upon

broadly liberal principles It claims to recognise the needs of religious believers and to protect them from discrimination But whilst its secular ideology pervades public discourse the vestigial remains of a Christian Protestant past are seen in things as varied as the structure of public holidays and the continued existence of established churches in both England and Scotland Religious Christian values also form the starting point for legal rules relating to matters such as marriage Active religious communities constitute a very small minority of the population however those who belong to them often see their religion as being the most important element of their identity Yet the world view of these communities is frequently at odds with both the prevailing liberal secular climate of Great Britain and its Christian Anglican past This necessarily entails a clash of ideologies that puts in question the secular majority's claim to want to protect religious minorities the possibility of it being able to sufficiently understand the needs of those minorities and the desirability or practicality of any accommodation between the needs of the various religious communities and the secular mainstream of society Law and Faith in a Sceptical Age addresses these issues by raising the question of whether a liberal secular state can protect religion Accommodation to different religious traditions forms part of the history of the legal systems of Britain This book asks whether further accommodation can and should be made

Messianic Zionism in the Digital Age Rachel Z. Feldman, 2024-03-15 Judaism in the twenty first century has seen the rise of the messianic Third Temple movement as religious activists based in Israel have worked to realize biblical prophecies including the restoration of a Jewish theocracy and the construction of the third and final Temple on Jerusalem's Temple Mount Through groundbreaking ethnographic research Messianic Zionism in the Digital Age details how Third Temple visions have gained considerable momentum and political support in Israel and abroad The role of technology in this movement's globalization has been critical Feldman skillfully highlights the ways in which the internet and social media have contributed to the movement's growth beyond the streets of Jerusalem into communities of former Christians around the world who now identify as the Children of Noah Bnei Noah She charts a path for future research while documenting the intimate effects of political theologies in motion and the birth of a new transnational Judaic faith

Lived Islam A. Kevin Reinhart, 2020-06-11 This book is designed to serve as a text for courses on modern Islam It challenges misleading questions which foster assumptions of Islam as a monolithic essence to instead argue that Islam like all religions is complex and thus best understood through analogy with language

Heresy, Magic and Witchcraft in Early Modern Europe Gary K Waite, 2019-10-10 In the fifteenth century many authorities did not believe Inquisitors stories of a supposed Satanic witch sect However the religious conflict of the sixteenth century Reformation especially popular movements of reform and revolt helped to create an atmosphere in which diabolical conspiracies which swept up religious dissidents Jews and magicians into their nets were believed to pose a very real threat Fear of the Devil and his followers inspired horrific incidents of judicially approved terror in early modern Europe leading after 1560 to the infamous witch hunts Bringing together the fields of Reformation and

witchcraft studies this fascinating book reveals how the early modern period's religious conflicts led to widespread confusion and uncertainty Gary K Waite examines in depth how church leaders dispelled rising religious doubt by persecuting heretics and how alleged infernal plots and witches who confessed to making a pact with the Devil helped the authorities to reaffirm orthodoxy Waite argues that it was only when the authorities came to terms with pluralism that there was a corresponding decline in witch panics

Discipleship in a Post-Christian Age Thiago Silva, 2025-05-20 This is an age where Christianity is no longer the assumed foundation of culture Instead secularism relativism and individualism shape how people think live and even approach faith Many within the church have unknowingly embraced a shallow self focused spirituality that offers comfort without transformation How can the church recover a robust life giving vision of discipleship in such a world With a little help from C S Lewis this book offers a way forward Lewis's insights rooted in reason imagination and community speak powerfully to this modern crisis equipping believers to engage both mind and heart Through cultural analysis and biblical wisdom this book calls the church to rediscover discipleship as an intellectual imaginative and relational pursuit one that forms resilient thoughtful and deeply rooted followers of Christ Whether picked up by a pastor church leader or everyday disciple longing for deeper faith this

book will challenge and inspire readers to cultivate a Christianity that is not only true but beautiful and compelling in an increasingly post Christian world A Secular Age beyond the West Mirjam Künkler, John Madeley, Shylashri

Shankar, 2018-07-05 This book traces religion and secularity in eleven countries not shaped by Western Christianity Japan China Indonesia India Pakistan Iran Russia Turkey Israel Egypt and Morocco and how they parallel or diverge from Charles Taylor's grand narrative of the North Atlantic world A Secular Age 2007 In all eleven cases the state enhanced by post colonial and post imperial legacies highly determines religious experience by variably regulating religious belief practice property education and or law Taylor's core condition of secularity namely legal permissibility and social acceptance of open religious unbelief Secularity III is largely absent in these societies The areas affected by state regulation however differ greatly In India Israel and most Muslim countries questions of religious law are central to state regulation But it is religious education and organization in China and church property and public practice in Russia that bear the brunt This book explains these differences using the concept of differential burdening **Sufism in an Age of Transition** Erik Ohlander, 2008-02-28

Although the early thirteenth century was a critical period in the development of Sufism it has received little scholarly attention Based on heretofore unexplored sources this book examines a pivotal figure from this period the scholar mystic statesman and eponym of one of the earliest *ar qa* lineages Umar al Suhraward In situating Suhraward's life work in its social political and religious contexts this book suggests that his universalizing Sufi system was not only enmeshed within a broader economy of Muslim religious learning but also furnished social spaces which allowed for novel modes of participation in Sufi religiosity In doing so this book provides a framework for understanding the increasingly ubiquitous presence of intentional Sufi communities and institutions throughout the late medieval Islamic world **An Age of Infidels** Eric R.

Schlereth, 2013-03-05 Historian Eric R Schlereth places religious conflict at the center of early American political culture He shows ordinary Americans both faithful believers and Christianity's staunchest critics struggling with questions about the meaning of tolerance and the limits of religious freedom In doing so he casts new light on the ways Americans reconciled their varied religious beliefs with political change at a formative moment in the nation's cultural life After the American Revolution citizens of the new nation felt no guarantee that they would avoid the mire of religious and political conflict that had gripped much of Europe for three centuries Debates thus erupted in the new United States about how or even if long standing religious beliefs institutions and traditions could be accommodated within a new republican political order that encouraged suspicion of inherited traditions Public life in the period included contentious arguments over the best way to ensure a compatible relationship between diverse religious beliefs and the nation's recent political developments In the process religion and politics in the early United States were remade to fit each other From the 1770s onward Americans created a political rather than legal boundary between acceptable and unacceptable religious expression one defined in reference to infidelity Conflicts occurred most commonly between deists and their opponents who perceived deists anti

Christian opinions as increasingly influential in American culture and politics Exploring these controversies Schlereth explains how Americans navigated questions of religious truth and difference in an age of emerging religious liberty
