Religious Fundamentalism In The Contemporary World Critical Social And Political Issues:

Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions

Conceptualizing Extreme Beliefs and Behaviors Rik Peels, John Horgan, 2025-08-05 This book explores the underlying challenging conceptual issues in defining interpreting and operationalizing notions such as extremism radicalization fanaticism and terrorism Written by global multidisciplinary experts this text lays the conceptual groundwork that the other volumes in the Extreme Belief and Behavior Series will build on Religion and Extremism Douglas Pratt, 2017-12-14 Focusing on the three monotheistic religions of Judaism Christianity and Islam Douglas Pratt argues that despite a popular focus on Islam extremist Jews and Christians can also enact terror and destruction Religion and Extremism stresses that the ideological rejection of diversity underlies religious extremism resulting in violent behaviours and increasingly in hardening social and religious attitudes and responses An analysis of religiously driven terrorism reveals the presence of a distinctive and rigid form of exclusivity found in these religions In this regard the contemporary resurgence in totalising claims of fundamentalist ideologues is cause for particular concern Pratt reasons that however expressed the motif of the Absolute is central to all but how that absolute is and has been received interpreted and responded to is a matter of great diversity The author asserts that theological Absolutism displays an underlying dynamic whereby these three religions may be led into extremism Religion and Extremism also explores contemporary issues of Islamophobia and mutual extremism identified as reactive co radicalization and concludes by reflecting on how extremism today might be countered Understanding Interreligious Relations David Cheetham, Douglas Pratt, David Richard Thomas, David Thomas, 2013-11 Understanding Interreligious Relations is a multi authored volume that explores the theme of the religious other from the perspective of five major religions Hinduism Judaism Buddhism Christianity and Islam and discusses a range of issues in which interreligious relations are central These include conversion the impact and nature of religious extremism the contemporary development of inter religious dialogue the dynamics operating between majority and minority religious groups belonging to more than one religion or faith tradition examples of cross religious co operation religion in the public domain and the task of peace building

among others In a religiously plural world how different religious communities get along with one another is not just an academic question it is very much a focus of socio political and wider community attention The challenge to understand interreligious relations is of critical importance in today s world **Gandhi's Truths in an Age of Fundamentalism and Nationalism** Sathianathan Clarke, Stephen Pickard, 2022-03-08 The twenty first century has seen violence thunder back onto the stage of history Religious political social cultural and economic constituents and interests thus contribute to the local and global manifestations of violence in our interconnected and contracting global world Firmly embedded within the field of religion the authors of this volume concede that religious motifs and impulses are alive and well in this unfolding of bloodshed It is no wonder then that in our volatile historical age religious fundamentalism and illiberal nationalism have emerged as dominant contemporary movements Against this backdrop the contributors to this edited book look back in order to move forward by reflecting upon the truth force Satyagraha that grounded and guided Mohandas Karamchand Gandhi 1869 1948 On the heels of several commemorations in 2019 of the 150th anniversary of Gandhi s birth we reexamine the truths of his philosophy and nonviolent strategy to resist religious and political fundamentalisms Embracing truth was for Gandhi the only way to achieve complete freedom poorna Swaraj The goal of freedom which Gandhi conceptualized as profoundly personal expansively communitarian and organically ecological emanates from a firm grasp of truth

Abnormal Psychology across the Ages Thomas G. Plante Ph.D., 2013-06-25 In these three volumes a team of scholars provides a thoughtful history of abnormal psychology demonstrating how concepts regarding disordered mental states their causes and their treatments developed and evolved across the ages Compiling current thought from some of the best minds in the field Abnormal Psychology across the Ages provides essays that reflect on multiple dimensions of abnormal behavior These experts present biological psychological social cultural and supernatural perspectives throughout human history on a range of disorders as well as the global influences on scientific thinking A fascinating read for anyone in the field of abnormal psychology from undergraduate students to clinicians counselors psychologists and psychiatrists this three volume work addresses questions such as What is abnormal psychology and thinking What are the causes how have we treated it and how do we treat it now And how does the culture of the times affect what we perceive as abnormality **Teaching for Diversity and Social Justice** Maurianne Adams, Lee Anne Bell, Pat Griffin, 2007-05-11 For nearly a decade Teaching for Diversity and Social Justice has been the definitive sourcebook of theoretical foundations and curricular frameworks for social justice teaching practice This thoroughly revised second edition continues to provide teachers and facilitators with an accessible pedagogical approach to issues of oppression in classrooms Building on the groundswell of interest in social justice education the second edition offers coverage of current issues and controversies while preserving the hands on format and inclusive content of the original Teaching for Diversity and Social Justice presents a well constructed foundation for engaging the complex and often daunting problems of discrimination and inequality in American society This book includes a CD ROM with

extensive appendices for participant handouts and facilitator preparation The ^AAge of Evangelicalism Steven P. Miller, 2014-04-10 Steven P Miller explores the place and meaning of evangelical Christianity in the United States between 1970 and 2008 *Innovative Catholicism and the Human Condition* Jane Anderson, 2016-05-20 Innovative Catholicism and the Human Condition gives an anthropological account of a progressive religious movement in the Roman Catholic Church that is attempting to reconcile religious conviction and reason and ergo modify the human condition Investigation is given to a representative group of this movement Innovative Catholics who are endeavouring to maintain the momentum for change which began in the 1960s and 1970s They now find themselves caught between traditional notions of religion and a secularised society while trying to reconcile these polarising forces to find a pathway forward While ethnographic fieldwork for this research was conducted in Australia this movement is to be found across the Western world The research is framed by the question posed by Jürgen Habermas who asks whether the democratic constitutional state is able to renew itself and recognises a benefit in learning from religion Cardinal Joseph Ratzinger subsequently Pope Benedict XVI responds by asserting the need for a common ethical basis and limits on reason This latter position however remains problematic for Innovative Catholics who are conscious of history and culture The research explores how Innovative Catholics who in taking the middle position inform this dialectic on secularization through their ideas and practices about the human condition

Transnationalism, 2009-05-20 This book deals with transnationalism and captures its singularity as a generalized phenomenon The profusion of transnational communities is a factor of fluidity in social orders and represents confrontations between contingencies and basic socio cultural drives It has created a new era different from the past at essential respects This is an age of enriching cultural diversity fraught with threatening risks inextricably linked to contemporary globalization National sovereignty is eroded from above by global processes from below by aspirations of sub national groups and from the sides by transnational allegiances This is the backdrop against which this book delves into the fundamental issues relating to the nature scope and overall significance of transnationalism **JAIR Journal of International Relations** Purusottam Bhattacharya, Ayangbam Shyamkishor, Dipankar Sinha, Sukalpa Chakrabarti, Langpoklakpam Suraj Singh, Yumnam Premananda Singh, Shubha Chatterjee, Sayantani Sen Majumdar, Sreya Maitra Roychoudhury, Satabdi Das, Maitrayee Guha, Mousumi Dasgupta, 2014-06-30 JAIR Journal of International Relations JAIR J Int Relat is a biennial peer reviewed refereed journal of International Relations published by The Jadavpur Association of International Relations with the financial assistance from the Indian Council of Social Science Research ICSSR New Delhi Religion, Material Culture and Archaeology Julian Droogan, 2012-11-22 Religion Material Culture and Archaeology offers a new understanding of the materiality of religion By drawing on the field of archaeological theory and method the relationship between religion and material culture is explored It is argued that the material elements of religious life have been largely neglected by the discipline of religious studies while at the same time religion has been traditionally seen as problematic for archaeologists

Why do we not talk of the discipline of the archaeology of religion in the same way we do the anthropology of religion or the sociology of religion The volume considers the historical problems of approaching the material elements of religious life and bridges the methodological gap between religious studies and archaeology by proposing a new way of understanding the materiality of religion as active engaged and projecting a level of autonomous social agency Finally the critical examination of archaeological approaches to the materiality of religion is furthered through the consideration of non archaeological ways of examining the social roles that material culture plays in human life

Political Radicalism in Iran and Ahmadinejad's Presidencies Giorgia Perletta, 2022-03-16 This book offers a critical deconstruction of radicalism as a political category and through this analytical approach seeks to interpret and assess the presidencies of the former Iranian President Mahmud Ahmadinejad It contextualizes radicalism within a broader framework of Western derived political categories which are too frequently used to simplify the complexities of Iran's domestic political landscape generally reducing any comprehensive and objective understanding of Iranian politics Since the term radicalism is often misrepresented and misused in readings of contemporary Iran this study examines several analogous Persian and English labels exploring their different meanings significances and varied applications in order to challenge any fixed and universal interpretations of radicalism as a concept The political experience of Mahmud Ahmadinejad who has been widely perceived as a radical politician provides an ideal case study in this regard offering valuable insight into how best to frame and interpret radicalism in post revolutionary Iran This book will be of particular interest to both scholars and students of Iranian Studies but also to more general readers who are broadly interested in Middle Eastern studies political science and comparative politics

The Many Faces of Public Management Reform in the Asia-Pacific Region Clay Wescott, Bidhya Bowornwathana, L.R. Jones, 2009-12-09 During the past decade globalization and democratization have been the major forces that helped transform the structures functions and processes of Asian public sectors These issues were explored at a conference July 7-9 2008 in Bangkok Thailand This book presents some of the works contributed by participating scholars at the conference

Religion and Terrorism Veronica Ward, Richard Sherlock, 2013-12-24 Religion and Terrorism The Use of Violence in Abrahamic Monotheism provides theoretical analysis of the nature of religious terrorism and religious martyrdom and also delves deeply into terrorist groups and beliefs in Judaism Christianity and Islam Religious terrorism is found in all three of the great monotheistic faiths and while the public is most aware of Islamic terrorism Jewish and Christian faiths have extremist groups that warp their teaching in ways unrecognizable to most adherents to support terrorism This work will be of interest to scholars in religious studies political science and sociology

Youth in Europe: An international empirical study about the impact of religion on life orientation Hans-Georg Ziebertz, William K. Kay, 2005 This book draws upon empirical data collected from 10 000 adolescent young people in 10 European countries The first volume of this project was about young people's life perspectives and the second about their religious attitudes and practices The current and final volume of this cross cultural

study connects both research dimensions The analyses make clear that the influence of religion on values life orientation and politics differs strongly between different groups within Christianity and between Christians Jews and Muslims Many findings contain obvious surprises because they refute mainstream opinion on many topics The book gives detailed and new insights in the public relevance of the religiosity of young people across Europe All three volumes together are indispensable for scholars who work in public religious and educational contexts *Competing Fundamentalisms* Sathianathan

Clarke,2017-03-29 Why do certain groups and individuals seek to do harm in the name of God While studies often claim to hold the key to this frightening phenomenon they seldom account for the crucial role that religious conviction plays not just in radical Islam but also in the fundamentalist branches of the world's two other largest religions Christianity and Hinduism As the first book to examine violent extremism in all three religions together *Competing Fundamentalisms* draws on studies in sociology psychology culture and economics while focusing on the central role of religious ideology to paint a richer portrait of this potent force in modern life Clarke argues that the forces of globalization fuel the aggression of these movements to produce the competing feature of religious fundamentalisms which have more in common with their counterparts across religious lines than they do with the members of their own religions He proposes ways to deescalate religious violence in the service of peacemaking Readers will gain important insights into how violent religious fundamentalism works in the world's three largest religions and learn new strategies for promoting peace in the context of contemporary interreligious conflict

Islam and the West Sadia Zulfiqar,2015-06-18 Islam like the West is not a homogenous monolith However Islam is most commonly represented in the West in terms of suicide bombing suppressed and veiled women and internal and external conflict These depictions of Islam suggest that the relationship between Islam and the West is and has always been one of hostility and hatred However this collection locates threads of connection and love between Islam and the West and argues that it is important to bring them to the forefront i [Encyclopedia of Trauma](#) Charles R.
