Religious Nationalism Confronts The Secular State:

The New Cold War? Mark Juergensmeyer, 2023-04-28 Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Central Asia and Eastern Europe Impassioned Muslim leaders in Egypt Palestine and Algeria political rabbis in Israel militant Sikhs in India and triumphant Catholic clergy in Eastern Europe are all players in Juergensmeyer's study of the explosive growth of religious movements that decisively reject Western ideas of secular nationalism Juergensmeyer revises our notions of religious revolutions Instead of viewing religious nationalists as wild eyed anti American fanatics he reveals them as modern activists pursuing a legitimate form of politics He explores the positive role religion can play in the political life of modern nations even while acknowledging some religious nationalists proclivity to violence and disregard of Western notions of human rights Finally he situates the growth of religious nationalism in the context of the political malaise of the modern West Noting that the synthesis of traditional religion and secular nationalism yields a religious version of the modern nation state Juergensmeyer claims that such a political entity could conceivably embrace democratic values and human rights Will the religious confrontations with secular authorities around the world lead to a new Cold War Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East South Asia Centr

Pluralizing Humanism Slavica Jakelić, 2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world But for humanism to be viable in the twenty first century this book argues it needs to be pluralized Employing theoretical historical and sociological arguments this book moves beyond the discourse of critique It engages theories of religion and secularism as well as postmodern postcolonial and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all Through studies of the Solidarity movement in Poland and the anti apartheid movement in South Africa the book demonstrates the centrality of humanist traditions to the emergence of religious secular solidarities that transformed the political landscapes of the world By highlighting the instances in which humanisms functioned as checks on each other's absolutist claims the book contends that humanisms supply a constructive path for addressing the challenges of our time a

time of radically divided societies and intolerant even violent forms of nationalism A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti religious discourse or relegate it to the domain of power constellations Pluralizing Humanism highlights the rich plurality of humanist discourses and the need for their mutual engagements It points to humanist ideals as constitutive of politics that can guide our human power because they are irreducible to it As such this book will appeal to social scientists social theorists religious studies scholars and ethicists with interests in religion secularism social movements and humanist thought and practice The Oxford Handbook of Religion, Conflict, and Peacebuilding Atalia Omer,R. Scott Appleby,David Little,2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field *Secular States and Religious Diversity* Bruce J. Berman,Rajeev Bhargava,André Laliberté,2013-10-25 Contemporary nation states have seen the rise of religious pluralism within their borders brought about by global migration and the challenge of radical religious movements *Secular States and Religious Diversity* explores the meaning of secularism and religious freedom in these new contexts The contributors chart the impact of globalization the varying forms of secularism in Western states and the different kinds of relations between states and religious institutions in the historical traditions and contemporary politics of Islamic Indic and Chinese societies They also examine the limitations and dilemmas of governmental responses to religious diversity and grapple with the question of how secular states deal and should deal with such pluralism This volume brings in perspectives from the non Western world and engages with viewpoints that might increase states capacities to accommodate religious diversity positively *Questioning the Secular State* David Westerlund,1996 Should the state be secular or religious Here the author seeks to determine the extent of the role of religion in political life *Regulating Difference* Marian Burchardt,2020-04-17 Religious Diversity Secularism and Nationhood Theorizing Religious Diversity and Secularism Contesting Religious Diversity and Secularism Spatializing Religious Diversity Urban Administration Infrastructure and Emplacement The Limits of Religious Diversity Regulating Full Face Coverings Making Claims to Religion as Culture The Rise of Heritage Religion *Religion and Violence* Jeffrey Ian Ross,2015-03-04 First Published in 2015 Daily newspaper headlines talk radio and cable television broadcasts and Internet news web sites continuously highlight the relationship between religion and violence These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan Iraq Israel Pakistan and elsewhere and assassinations of doctors who perform abortions by white American Christian true believers in the United States How does one make sense of the role of religion in violence and of perpetrators of violence who cite religion as a motivation This encyclopedia includes a wide range of entries biographies of key figures historical events religious groups countries and regions where religion and violence have intersected and practices rituals and processes of religious violence *Varieties of Secularism in Asia* Nils Ole Bubandt,Martijn Van

Beek,2012-03-12 *Varieties of Secularism* is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism s and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor s magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion politics and anthropology

Legitimacy Gap Vincent Depaigne,2017-08-25 This book provides an account and explanation of a fundamental dilemma facing secular states the legitimacy gap left by the withdrawal of religion as a source of legitimacy Legitimacy represents a particular problem for the secular state The secular in all its manifestations is very much linked to the historical rise of the modern state It should not be seen as a category that separates culture and religion from politics but rather as one that links these different dimensions In the first part of the book Depaigne explains how modern constitutional law has moved away from a substantive legitimacy based in particular on natural law towards a procedural legitimacy based on popular sovereignty and human rights Depaigne examines three case studies of constitutional responses to legitimacy challenges which articulate the three main sources of procedural legitimacy people rights and culture in different ways the neutral model constitutions based on the displacement of culture the multicultural model constitutions based on diversity and pluralism and the asymmetric model constitutions based on tradition Even if secularization can be considered European in its origin it is best seen today as a global phenomenon which needs to be approached by taking into account the particular cultural dimension in which it is rooted Depaigne s detailed study shows how secularization has moved either towards nationalization linked to a particular national identity as in France and to some extent in India or towards de secularization whereby secularism is displaced by particular cultural norms as in Malaysia

Religion and Nationalism in Global Perspective J. Christopher Soper,Joel S. Fetzer,2018-10-11 It is difficult to imagine forces in the modern world as potent as nationalism and religion Both provide people with a source of meaning each has motivated individuals to carry out extraordinary acts of heroism and cruelty and both serve as the foundation for communal and personal identity While the subject has received both scholarly and popular attention this distinctive book is the first comparative study to examine the origins and development of three distinct models religious nationalism secular nationalism and civil religious nationalism Using multiple methods the authors develop a new theoretical framework that can be applied across diverse countries and
