Religious Organizations In Community Services A Social Work Perspective:

Religious Organizations in Community Services Terry Tirrito, Toni Cascio, 2003-01-16 This book explores the scope and breadth of religious organizations in social work practice. It begins by tracing the origins of the social work profession back to the earliest civilizations and their religious traditions, establishing the precedent for a fruitful commingling of religion and social welfare. The contributors propose that religious faith organizations can assume responsibilities for social welfare in the 21st century, using the Korean Church as one example of an effective provider of social services. A 12-step model for religious organizations to use to develop community action programs is also presented.

Social Work and Faith-based Organizations Beth R. Crisp, 2014-04-29 Faith-based organizations continue to play a significant role in the provision of social work services in many countries, but their role within the welfare state is often contested. This text explores their various roles and relationships to social work practice, includes examples from different countries and a range of religious traditions, and identifies challenges and opportunities for the sector. Social Work and Faith-based Organizations discusses issues such as the relationship between faith-based organizations and the state, working with an organization's stakeholders, ethical practice and dilemmas, and faith-based organizations as employers. It also addresses areas of debate and controversy, such as providing services within and for multi-faith communities and tensions between professional codes of ethics and religious doctrine. Accessibly written by a well-known social work educator, it is illustrated by numerous case studies from a range of countries including Australia, the UK, and the US. Suitable for social work students taking community or administration courses or undertaking placements in faith-based organizations, this innovative book is also a valuable resource for managers and religious personnel who are responsible for the operation of faith-based agencies.

Spiritual Diversity in Social Work Practice Edward R. Canda, Leola Dyrud Furman, 2010 Weaving together interdisciplinary theory and research, as well as the results from a national survey of practitioners, the authors describe a spiritually oriented model for practice that places clients' challenges and goals within the context of their deepest meanings and highest aspirations. Using richly detailed case examples and thought-provoking activities, this highly accessible text illustrates the professional values and ethical principles that guide spiritually sensitive practice. It presents definitions and conceptual models of spirituality and religion, draws connections between spiritual diversity and cultural, gender, and sexual orientation diversity, and offers insights from Buddhism, Christianity, Confucianism, Hinduism, Indigenous religions, Islam, Judaism, Existentialism, and Transpersonal theory. Eminently practical, it guides professionals in understanding and assessing spiritual development and related mental health issues and outlines techniques that support transformation and resilience, such as meditation, mindfulness, ritual, forgiveness, and engagement of individual and community-based spiritual support systems.

and rewarding work of building and sustaining rural communities Social Work in the 21st Century Michael Reisch, Eileen Gambrill, 1997-02-05 I am enthusiastic about this publication it is an excellent manuscript well conceived well written and the contributors all appear to be very well qualified Philip Popple Western Michigan University This book will be helpful to you in teaching policy practice or introductory social work courses at the BSW or MSW level if you want to Generate stimulating discussion and debate among your students on how social work s roles are changing now and may change further in the future Expose your students to the thoughts and opinions of many of today s leaders in social work education in essays specially written for this volume **One Hundred Years of Social Work** Therese Jennissen, Colleen Lundy, 2011-02-17 One Hundred Years of Social Work is the first comprehensive history of social work as a profession in English Canada Organized chronologically it provides a critical and compelling look at the internal struggles and debates in the social work profession over the course of a century and investigates the responses of social workers to several important events A central theme in the book is the long standing struggle of the professional association the Canadian Association of Social Workers and individual social workers to reconcile advancement of professional status with the promotion social action The book chronicles the early history of the secularization and professionalization of social work and examines social workers roles during both world wars the Depression and in the era of postwar reconstruction It includes sections on civil defence the Cold War unionization social work education regulation of the profession and other key developments up to the end of the twentieth century Drawing on extensive archival research as well as personal interviews and secondary literature the authors provide strong academic evidence of a profession that has endured many important changes and continues to advocate for a just society and a responsive social welfare state One Hundred Years of Social Work will be of interest to social workers social work students and educators social historians professional associations and anyone interested in understanding the complex nature of people and institutions **Charitable Choice at Work** Sheila Suess Kennedy, 2006-11-17 Too often say its critics U S domestic policy is founded on ideology rather than evidence Take Charitable Choice legislation enacted with the assumption that faith based organizations can offer the best assistance to the needy at the lowest cost The Charitable Choice provision of the 1996 Welfare Reform Act buttressed by President Bush s Faith Based Initiative of 2000 encouraged religious organizations including congregations to bid on government contracts to provide social services But in neither year was data available to prove or disprove the effectiveness of such an approach Charitable Choice at Work fills this gap with a comprehensive look at the evidence for and against faith based initiatives Sheila Suess Kennedy and Wolfgang Bielefeld review the movement s historical context along with legal analysis of constitutional concerns including privatization federalism and separation of church and state Using both qualitative and where possible statistical data the authors analyze the performance of job placement programs in three states with a representative range of religious political and demographic traits Massachusetts Indiana and North Carolina Throughout they focus on measurable outcomes as they compare non faith

based with faith based organizations nonprofits with for profits and the logistics of contracting before and after Charitable Choice Among their findings in states where such information is available the composition of social service contractor pools has changed very little Reflecting their varied political cultures states have funded programs differently Faith based organizations have not been eager to seek government contracts perhaps wary of additional legal restraints and reporting burdens The authors conclude that faith based organizations appear no more effective than secular organizations at government funded social service provision that there has been no dramatic change in the social welfare landscape since Charitable Choice and that the constitutional concerns of its detractors may be valid This empirical study penetrates the fog of the culture wars moving past controversy over the role of religion in public life to offer pragmatic suggestions for policymakers and organizations who must decide how best to assist the needy
