Deep Cosmopolis Adam K. Webb, 2015-05-15 Too often observers of globalization take for granted that the common ground across cultures is a thin layer of consumerism and perhaps human rights If so then anything deeper and more traditional would be placebound and probably destined for the dustbin of history But must this be so Must we assume as both liberals and traditionalists now tend to do that one cannot be a cosmopolitan and take traditions seriously at the same time This book offers a radically different argument about how traditions and global citizenship can meet and suggests some important lessons for the contours of globalization in our own time Adam K Webb argues that if we look back before modernity we find a very different line of thinking about what it means to take the whole world as one's horizon Digging into some fascinating currents of thought and practice in the ancient world the Middle Ages and the early modern period across all major civilizations Webb is able to reveal patterns of deep cosmopolitanism with its logic quite unlike that of liberal globalization today In their more cosmopolitan moments everyone from clerics to pilgrims to empire builders was inclined to look for deep ethical parallels points of contact among civilizations and traditions Once modernity swept aside the old civilizations however that promise was largely forgotten We now have an impoverished view of what it means to embrace a tradition and even what kinds of conversations across traditions are possible In part two Webb draws out the lessons of deep cosmopolitanism for our own time If revived it has something to say about everything from the rise of new non Western powers like China and India and what they offer the world to religious tolerance to global civil society to cross border migration Deep Cosmopolis traces an alternative strand of cosmopolitan thinking that cuts across centuries and civilizations It advances a new perspective on world history and a distinctive vision of globalization for this century which has the real potential to resonate with us all

The Limits of Religious Tolerance Alan Levinovitz, 2016-10-21
Is religious tolerance always a virtue Can we shield any discourse with the claim of religious belief Alan Levinovitz argues that preserving a meaningful place for religiously informed values in public discourse means we must discern limits on what qualifies as religious speech

Conversions Craig Harline, 2011-09-15 The experiences of two families one in seventeenth century Holland the other in America today and how they coped when a family member changed religions This powerful and innovative work by a gifted cultural historian explores the effects of religious conversion on family relationships showing how the challenges of the Reformation can offer insight to families facing similarly divisive situations today Craig Harline begins with the story of young Jacob Rolandus the son of a Dutch Reformed preacher who converted to Catholicism in 1654 and ran away from home causing his family to disown him In the companion story Michael Sunbloom a young American leaves his family s religion in 1973 to convert to Mormonism similarly upsetting his distraught parents The modern twist to Michael s story is his realization that he is gay causing him to leave his new church and upsetting his parents again but this time the family reconciles Recounting these stories in short alternating chapters Harline underscores the parallel aspects of the two far flung families Despite different outcomes and forms their situations involve nearly identical dynamics and heart wrenching choices Through the author s deeply informed imagination the experiences of a seventeenth century European family are transformed into immediately recognizable terms A beautiful and moving book Harline is a master at narrative and at making the most painstaking research look effortless Carlos Eire Yale University An absorbing creative book it will definitely become a go to book for readers interested in the history and psychology of conversion Lauren Winner author of *Girl Meets God: A Memoir* An unexpected joy A compelling insightful examination *Conversions* is a journey well worth taking Gerald S Argetsinger Affirmation.org

The Oxford Handbook of Christianity in Asia Felix Wilfred, 2014. Named by the *International Bulletin of Missionary Studies* as an Outstanding Book of 2014 for Mission Studies. Despite the ongoing global expansion of Christianity, there remains a lack of comprehensive scholarship on its development in Asia. This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions, including worship, theology, spirituality, inter religious relations, interventions in society, and mission. The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia. They analyze how the growth of Christian beliefs throughout the continent is linked with the socio political and cultural processes of colonization, decolonization, modernization, democratization, identity construction of social groups, and various social movements. With a particular focus on inter religious encounters and emerging theological and spiritual paradigms, the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia.

Climate Perspectives from the Congo Basin Bila-Isia Inogwabini, 2024-05-31. This book considers the global question of climate change from local perspectives in the context of Central Africa. Bila-Isia Inogwabini examines attempts made by the international community to respond to the global challenges posed by climate change in the Congo Basin and highlights that these attempts have so far produced limited results. Abject poverty and the lack of academic, technical, institutional, and governance capacities have made it difficult for these solutions to take root in local conditions. Taking a novel perspective, Inogwabini argues that what is needed is not austerity in the use of natural resources but rather increased material affluence for these communities, which will enable individuals to create their own ways to survive through the tides of climate change. He considers factors including social inertia, climate skepticism, and lack of political structure and presents a climate change action plan that is targeted at the local level in the Congo Basin. Overall, this volume will be of great interest to students and scholars of climate change, global development, and African studies more broadly.

The Longings and Limits of Global Citizenship

Education Jeffrey S. Dill, 2013-07-18 As the world seemingly gets smaller and smaller schools around the globe are focusing their attention on expanding the consciousness and competencies of their students to prepare them for the conditions of globalization Global citizenship education is rapidly growing in popularity because it captures the longings of so many to help make a world of prosperity universal benevolence and human rights in the midst of globalization s varied processes of change This book offers an empirical account from the perspective of teachers and classrooms based on a qualitative study of ten secondary schools in the United States and Asia that explicitly focus on making global citizens Global citizenship in these schools has two main elements both global competencies economic skills and global consciousness ethical orientations that proponents hope will bring global prosperity and peace However many of the moral assumptions of global citizenship education are more complex and contradict these goals and are just as likely to have the unintended consequence of reinforcing a more particular Western individualism While not arguing against global citizenship education per se the book argues that in its current forms it has significant limits that proponents have not yet acknowledged which may very well undermine it in the long run

Contemporary Muslim and Christian Responses to Religious Plurality Lewis E. Winkler, 2011-03-01 In our rapidly changing and progressively globalized world Christians and Muslims are faced with the prospect of directly encountering and responding to people of other faiths and cultures This has pushed us all to address the vital question of how best to live with work beside and love one other as fellow citizens of our planet Using resources from Christian theologian Wolfhart Pannenberg Muslim ethicist Abdulaziz Sachedina and several others Winkler argues that we must continually dialogue with one another not only about the beliefs and practices held in common between us but also about the ways in which we are distinctively different Only then can we take the opportunity more comprehensively to understand appreciate and cooperate with each other to build just moral and cohesive communities of hope in our often uncertain and unsettling times *Islamic Law and International Human Rights Law* Mark Ellis, Anver M.
