

A woman with long, curly brown hair is shown from the chest up, holding a black smartphone to her ear with her right hand. She has a serious, questioning expression on her face. She is wearing a brown and black patterned cardigan over a dark top. The background is a blurred indoor setting with warm lighting. On the right side of the image, there is large, bold, white text with a black outline.

Trouille, 2014-05-05 Set in Paris in the 1780s Rétif de la Bretonne's *Ingénue Saxancour* is a thinly veiled account of his daughter's disastrous marriage to an abusive husband From the time of her marriage in January 1780 until she left her husband in July 1785 Agnès Rétif suffered continually from severe physical sexual and emotional abuse Published in 1789 Rétif's novel scandalized the public with its graphic descriptions of his son-in-law's sexual perversity and brutal violence Rétif's novel remains shocking more than two centuries later and continues to raise disturbing questions about power relations within abusive relationships Perhaps most disturbing of all are the accusations leveled against Rétif himself concerning his motives for writing and publishing this account Was he as some charged a shameless exhibitionist willing to reveal his family's darkest secrets merely to attract attention and broaden his readership Was he an unscrupulous opportunist willing to capitalize on his daughter's misfortunes and risk her reputation simply to pay his debts Or was he as he himself claimed trying to warn young women about the dangers of marrying men of dubious backgrounds against their parents' wishes Rétif was all this and more a reform-minded pioneer far in advance of his time with his graphic portrayal of spousal abuse his call for greater public awareness of this perennial problem and his crusade for liberal divorce laws that would allow women to escape from abusive relationships and to remarry This in fact is what Agnès Rétif was able to do after passage of the divorce law passed by France's revolutionary government in 1792      Adultery in the Novel Tony Tanner, 2020-02-04 Originally published in 1979 Adultery is a dominant feature in chivalric literature it becomes a major concern in Shakespeare's last plays and it forms the central plot of novels from *Anna Karenina* to *Couples* Tony Tanner proposes that transgressions of the marriage contract take on a special

significance in the bourgeois novels of the eighteenth and nineteenth centuries His interpretation begins with the general topic of adultery in literature and then zeroes in on three works Rousseau's *La Nouvelle Héloïse* Goethe's *Die Wahlverwandtschaften* and Flaubert's *Madame Bovary* His interpretation encompasses the role of women the structure of the family social mores and the history of sexuality The Gospel of st.
