A Syllabus for the History of Western Europe, with References and Review Questions Norman MacLaren Trenholme, 1907 Monasticism in North-Western Europe, 800-1200 Tore Nyberg, 2018-12-20. This title was first published in 2000. This is a full scale integrated synthesis of the origins, spread and effects of monasticism in Scandinavia and along the shores of the Baltic and the North Sea. Beginning with a review of the geography and communications by land and especially by sea of the region the author goes on to describe early monasticism among the Frisians Saxons and the Danes then in Norway and Sweden Saxony Slesvig and Ribe and finally Pomerania and the southern and eastern Baltic littoral. Throughout the book he stresses the place of abbeys and convents within their local surroundings as centres of conversion recruitment and redistribution of wealth. He traces the intellectual literary and liturgical connections between monastic centres and neighbouring cathedral towns and royal strongholds and the means by which orders or congregations maintained discipline from the centre. He also describes the leaders who emerged from convent abbey or congregation to command local and regional political and cultural life and the ways in which monastic centres influenced popular devotion.
