Monet's Minutes André Dombrowski,2023-01-01 A stunning exploration of the vital links between Claude Monet s Impressionism and the time technologies that helped define modernity in the nineteenth century Monet s Minutes is a revelatory account charting the relationship between the works of Claude Monet 1840 1926 founder of French Impressionism and one of the world s best known painters and the modern experience of time Andr Dombrowski illuminates Monet s celebration of instantaneity in the context of the late nineteenth century time technologies that underwrote it Monet s version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism s major stylistic shifts Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and
