philosopher Maurice Merleau Ponty apply to the core of Claude Monet's art in the years between 1880 and the beginning of the twentieth century. While interest usually lies only on the early and late work of this exceptional artist, the catalogue containing more than fifty works of art traces the development between these two periods. Accompanied by texts by well-known art historians, the reader is invited to follow Monet's unusual treatment of reflections and shadows in his paintings. It allowed him to break loose from the modalities of representational logic and the pictorial object. And they made room for an aesthetic that helped to do justice to perception itself and to enforce a painting's self-reflexive momentum.

Fondation Beyeler Riehen Basel 22.1.28.5.2017 **Katherine Mansfield and Literary Impressionism** Julia van Gunsteren, 2024-08-26 Art in World History 2 Vols Mary Hollingsworth, Giulio Carlo Argan, 2016-06-03

This is a collection of two volumes covering the History of Art and its relationship with human development, religion, and cultures. Volume One starts from the early civilisations and the origins of art in early artifacts, the kingdoms of Mesopotamia and Ancient Egypt, Eastern Mediterranean, and the empire in China. It continues onto the sixteenth century, taking in Classical Greece and Rome, Byzantine Art, the Carolingian Empire, explain to the rise of Islamic African Art, and the development of India. Art around the religions of Buddhism, Jainism, and Hinduism, as well as Chinese Art of Taoism and Confucianism. Much of art in the medieval age was influenced by the conquests, religion, and faith, as well as gothic and Italian City State art. The early renaissance of the fifteenth century is heavily steeped in the history of Florence and the Papacy, as well as the princes and merchants of northern Europe, compassing Venetian art at the end of the sixteenth century. Volume Two continues until the twentieth century, looking at the themes of power and image in the European courts, as well as the Muslim Courts. The strength of the Catholic church influences the Roman and Baroque art developments of the seventeenth century, as well as expeditions to the Americas, Spain, and the Netherlands. The frivolity and extravagance dominates eighteenth-century art with the arrival of Rococo, and a return to neoclassicism, which moved to romanticism in the nineteenth century, and the freedom of realism, impressionism, and the new materials of the industrial revolution in the twentieth century. Both volumes contain an index of names and places.

Monet's Minutes Andr  Dombrowski, 2023-01-01

A stunning exploration of the vital links between Claude Monet's Impressionism and the time technologies that helped define modernity in the nineteenth century. Monet's Minutes is a revelatory account charting the relationship between the works of Claude Monet (1840-1926), founder of French Impressionism and one of the world's best-known painters, and the modern experience of time. Andr  Dombrowski illuminates Monet's celebration of instantaneity in the context of the late nineteenth-century time technologies that underwrote it. Monet's version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time, but until now, scholars have not examined the histories and

technologies of time and timekeeping that informed Impressionism's major stylistic shifts. Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time, Monet's *Minutes* traces the evolution of Monet's art to what were then seismic shifts in the shape of time itself. In each chapter, Dombrowski focuses on the connections between a set of Monet's works and a specific technology or experience of time while providing the voices of period critics responding to Impressionism. Grounded in exceptional research and analyses, this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth-century art society and modern temporality.
