*Claude Monet* Christoph Heinrich,1996      **Monet's Minutes** André Dombrowski,2023-01-01 A stunning exploration of the vital links between Claude Monet s Impressionism and the time technologies that helped define modernity in the nineteenth century Monet s Minutes is a revelatory account charting the relationship between the works of Claude Monet 1840 1926 founder of French Impressionism and one of the world s best known painters and the modern experience of time Andr Dombrowski illuminates Monet s celebration of instantaneity in the context of the late nineteenth century time technologies that underwrote it Monet s version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism s major stylistic shifts Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time Monet s Minutes traces the evolution of Monet s art to what were then seismic shifts in the shape of time itself In each chapter Dombrowski focuses on the connections between a set of Monet s works and a specific technology or experience of time while providing the voices of period critics responding to Impressionism Grounded in exceptional research and analyses this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth century art society and modern temporality      **Shades—Of Painting at the Limit** John Sallis,2017-02-11 Sallis s ideas are presented in a singular scholarly remarkable captivating conceptually rigorous dense and deep manner Highly recommended Choice This fascinating book by one of the more original voices writing philosophy in English poses questions about the nature of the visible and invisible sensible and intelligible Dennis Schmidt What is it that an artist paints in a painting Working from paintings themselves rather than from philosophical theories John Sallis shows how through shades and limits the painter renders visible the light that confers visibility on things In his extended examination of three phases in the development of modern painting Sallis focuses on the work of Claude Monet Wassily Kandinsky and Mimmo Paladino three painters who each in his own way carry painting to the limit      **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis,2023-12-22 The essays in this wide ranging

With a sturdy cover and rounded corners they are perfect to be carried everywhere Claude Monet was a leading figure of the nineteenth century Impressionist movement which takes its name from his painting *Impression Sunrise* 1872 Among other subjects Monet was known for his landscapes of Paris and Normandy and his beautiful studies of flowers as well as approximately 250 incredible oil paintings of water lilies *Flame Tree* *The Art of Fine Gifts* **The Painting of Modern Life** T.J. Clark, 2017-06-28 From T J Clark comes this provocative study of the origins of modern art in the painting of Parisian life by Edouard Manet and his followers The Paris of the 1860s and 1870s was a brand new city recently adorned with boulevards caf s parks Great Exhibitions and suburban pleasure grounds the birthplace of the habits of commerce and leisure that we ourselves know as modern life A new kind of culture quickly developed in this remade metropolis sights and spectacles avidly appropriated by a new kind of consumer clerks and shopgirls neither working class nor bourgeois inventing their own social position in a system profoundly altered by their very existence Emancipated and rootless these men and women flocked to the bars and nightclubs of Paris went boating on the Seine at Argenteuil strolled the island of La Grande Jatte enacting a charade of community that was to be captured and scrutinized by Manet Degas and Seurat It is Clark s cogently argued and profusely illustrated thesis that modern art emerged from these painters attempts to represent this new city and its inhabitants Concentrating on three of Manet s greatest works and Seurat s masterpiece Clark traces the appearance and development of the artists favorite themes and subjects and the technical innovations that they employed to depict a way of life which under its liberated pleasure seeking surface was often awkward and anxious Through their paintings Manet and the Impressionists ask us and force us to ask ourselves Is the freedom offered by modernity a myth Is modern life heroic or monotonous glittering or tawdry spectacular or dull *The Painting of Modern Life* illuminates for us the ways both forceful and subtle in which Manet and his followers raised these questions and doubts which are as valid for our time as for the age they portrayed *Conversations with Cézanne* Paul Cézanne, 2001 This book gathers the commentary of people who knew the painter Paul Cezanne especially in his later years Now seen as one of the most influential of modern painters in his 40s he returned to his village of Aix en Provence where he worked in near obscurity and with great dedication until his death in 1906 *The Studio* , 1901 **Impressionist Giverny** Nina Lübbren, Kathleen Pyne, Margaret Werth, San Diego Museum of Art, 2007 Between 1885 and 1915 the village of Giverny in France attracted more than 350 artists from at least eighteen countries around the world transforming from a sleepy community to a vibrant and important artists colony The presence of master impressionist painter Claude Monet who settled in the village in 1883 attracted these young artists but his presence does not solely explain Giverny s popularity Artists also sought the opportunity to combine the practice of plein air painting with an active social life and enjoyed the locale s picturesque features and easy proximity to Paris Many artists visited briefly while others purchased homes and studios making this Norman village an artistic center *La peinture aux XIXe et XXe siècles* Henri Focillon, 1928 **Monument, Moment, and Memory** Ronald R. Bernier, 2007 By the end of

the nineteenth century a mode of painting captured instantaneity had come to be seen as an appropriate and characteristically Impressionist means of depicting its subject when that subject was understood to be our variable perception in nature In May of 1895 however capriciously it seemed to some to the facade of a Gothic cathedral Struck by the curious choice a medieval monument as subject matter critics used to about instantaneity continued to lay emphasis on a theme of temporality and this was addressed in two but related ways First there was the matter of perception the temporality that is involved in engaging visually with near impenetrable surfaces of individual canvases *Guide du Routard Normandie*
