Economic Management And Transition Towards A Market Economy: An Asian Perspective Anthony Theng Heng Chin,Hock Guan Ng,1996-10-04 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some

How China Escaped Shock Therapy Isabella M. Weber,2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country s rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China s path In the first post Mao decade China s reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia s economy collapsed under shock
