There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, maybe because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, maybe because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move so the entire zodiac can be observed in a span of 24 hours, day and night, which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional, and spiritual attributes more with the rising sign at times. *Choices in Relationships* David Knox, Caroline Schacht, I. Joyce Chang, 2020-01-07. Cutting edge and student friendly. *Choices in Relationships* takes readers through the lifespan of relationships, marriages, and families and utilizes research to help them make deliberate, informed choices in their interpersonal relationships. *Indirect Subjects* Matthew H. Brown, 2021-08-23. In *Indirect Subjects*, Matthew H. Brown analyzes the content of the prolific Nigerian film industry's mostly direct-to-video movies alongside local practices of production and circulation to show how screen media play spatial roles in global power relations. Scrutinizing the deep structural and aesthetic relationship between Nollywood as the industry is known and Nigerian state television, Brown tracks how several Nollywood films in ways similar to both state television programs and colonial cinema productions invite local spectators to experience liberal capitalism not only as a form of exploitation but as a set of expectations about the future. This mode of address, which Brown refers to as periliberalism, sustains global power imbalances by locating viewers within liberalism but distancing them from its processes and benefits. Locating the wellspring of this hypocrisy in the British Empire's practice of indirect rule, Brown contends that culture industries like Nollywood can sustain capitalism by isolating ordinary African people whose labor and consumption fuel it from its exclusive privileges.
