humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor, 1989 **Money in the Western Legal Tradition** David Murray Fox, Wolfgang Ernst, 2016 Monetary law is essential to the functioning of private transactions and international dealings by the state nearly every legal transaction has a monetary aspect Money in the Western Legal Tradition presents the first comprehensive analysis of Western monetary law covering the civil law and Anglo American common law legal systems from the High Middle Ages up to the middle of the 20th century Weaving a detailed tapestry of the changing concepts of money and private transactions throughout the ages the contributors investigate the special contribution made by legal scholars and practitioners to our understanding of money and the laws that govern it Divided in five parts the book begins with the coin currency of the Middle Ages moving through the invention of nominalism in the early modern period to cashless payment and the rise of the banking system and paper money then charting the progression to fiat money in the modern era Each part commences with an overview of the monetary environment for the historical period written by an economic historian or numismatist These are followed by chapters describing the legal doctrines of each period in civil and common law Each section contains examples of contemporary litigation or statute law which engages with the distinctive issues affecting the monetary law of the period This interdisciplinary approach reveals the distinctive conception of money prevalent in each period which either facilitated or hampered the implementation of economic policy and the operation of private transactions

The Great Wave David Hackett Fischer, 1996 Fischer has examined price records in many nations and finds that great waves of rising prices in the 13th 16th 18th and 20th centuries were all marked by price swings of increasing volatility falling wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair 109 graphs charts 7 maps **Atlas of Medieval Europe** David Ditchburn, Angus Mackay, 2002-09-11 Covering the period from the fall of the Roman Empire through to the beginnings of the Renaissance this is an indispensable volume which brings the complex and colourful history of the Middle Ages to life Key features geographical coverage extends to the broadest

definition of Europe from the Atlantic coast to the Russian steppes each map approaches a separate issue or series of events in Medieval history whilst a commentary locates it in its broader context as a body the maps provide a vivid representation of the development of nations peoples and social structures With over 140 maps expert commentaries and an extensive bibliography this is the essential reference for those who are striving to understand the fundamental issues of this period

Money in Asia (1200 - 1900): Small Currencies in Social and Political Contexts, 2015-01-27 Money in Asia examines two chronic problems that faced early modern monetary economies in East South and Southeast Asia The inability to provide sufficient amounts of small currencies to facilitate local economic transactions and to control currency depreciation The studies in this volume analyze the social and economic consequences of small currency scarcity and devaluation on various Asian economies and show how various regimes tried to manage these ever present challenges They reveal that those regimes that dealt most successfully with these two issues were those with an integrated national approach to monetary policy Contributors are Peter Bernholz Werner Burger Cao Jin Mark Elvin Dennis O Flynn Roger Greatrex Najaf Haider Reinier H Hesselink Elisabeth Kaske Man hounng Lin Jane Kate Leonard Christine Moll Murata Keiko Nagase Reimer Shan Kunqin Shimada Ry to Ulrich Theobald Hans Ulrich Vogel and Willem Wolters The Church in the Republic: Gallicanism & Political Ideology in Renaissance France Church in the Republic Jotham Parsons, 2004-12 This book presents an examination of the ways in which Renaissance humanism and the Catholic and Protestant Reformations interacted to create the modern state BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Languages of Power in the Age of Richard II, 2005 *Impersonal Power* Heide Gerstenberger, 2007-08-31 The point of departure of Heide Gerstenberger's path breaking work is a critique of structural functionalist theory of the state in both its modernisation theory and materialist variants Prof Gerstenberger opposes to these a historical theoretical explanation that proceeds from the long term structuring effect of concrete social practice This is elucidated by detailed investigation of the development of bourgeois state power in the two key examples of England and France The different complexions that the bourgeois state assumed are presented as the results of processes of social and cultural formation and thus irreducible to a simple function of capitalism This approach culminates in the thesis that the bourgeois form of capitalist state power arose only where capitalist societies developed out of already rationalised structures of the Ancien R gime type **The Power of Gold** Peter L. Bernstein, 2012-04-10 The need for realism in reform of its monetary system is what makes Bernstein's story of the Power of Gold so timely It is a compelling reminder that maintaining a fixed price for gold and fixed exchange rates were difficult even in a simpler financial environment Peter Bernstein was reluctant to project the story of gold into the future But to me his message was clear Yes gold will be with us valued not only for its intrinsic qualities but as a last refuge and store of value in turbulent times But its days as money as a means of payment and a fixed unit of account are gone From the New Foreword by Paul Volcker This bestselling book reveals a record of human nature in the ubiquity of gold with a new foreword

by Paul Volcker In this exciting book the late Peter L Bernstein tells the story of history's most coveted celebrated and inglorious asset gold From the ancient fascinations of Moses and Midas through the modern convulsions caused by the gold standard and its aftermath gold has led many of its most eager and proud possessors to a bad end And while the same cycle of obsession and desperation may reverberate in today's fast moving electronically driven markets the role of gold in shaping human history is the striking feature of this tumultuous tale Such is the power of gold Whether it is Egyptian pharaohs with depraved tastes the luxury mad survivors of the Black Death the Chinese inventor of paper money the pirates on the Spanish Main or the hardnosed believers in the international gold standard gold has been the supreme possession It has been an icon for greed and an emblem of rectitude as well as a vehicle for vanity and a badge of power that has shaped the destiny of humanity through the ages Discusses the beginnings of gold as something with magical religious and artistic qualities and follows its trail as we progress to the invention of coinage the transformation of gold into money and the gold standard Other bestselling books by the late Peter Bernstein *Against the Gods* *Capital Ideas* and *Capital Ideas Evolving* Contemplates gold from the diverse perspectives of monarchs and moneyers potentates and politicians men of legendary wealth and others of more plebeian beginnings Far more than a tale of romantic myths daring explorations and the history of money and power struggles *The Power of Gold* suggests that the true significance of this infamous element may lie in the timeless passions it continues to evoke and what this reveals about ourselves *Money and the Nation State* Kevin Dowd, Richard Henry Timberlake, Finally the authors outline the reforms necessary to create monetary financial and banking systems free of the episodic inflation devaluation debt crises and exchange rate volatility that have plagued the twentieth century
