[Is Marriage for White People?](#) Ralph Richard Banks, 2011-09-01 A distinguished Stanford law professor examines the steep decline in marriage rates among the African American middle class and offers a paradoxical nearly

incendiary solution Black women are three times as likely as white women to never marry That sobering statistic reflects a broader reality African Americans are the most unmarried people in our nation and contrary to public perception the racial gap in marriage is not confined to women or the poor Black men particularly the most successful and affluent are less likely to marry than their white counterparts College educated black women are twice as likely as their white peers never to marry Is Marriage for White People is the first book to illuminate the many facets of the African American marriage decline and its implications for American society The book explains the social and economic forces that have undermined marriage for African Americans and that shape everyone's lives It distills the best available research to trace the black marriage decline's far reaching consequences including the disproportionate likelihood of abortion sexually transmitted diseases single parenthood same sex relationships polygamous relationships and celibacy among black women This book centers on the experiences not of men or of the poor but of those black women who have surged ahead even as black men have fallen behind Theirs is a story that has not been told Empirical evidence documents its social significance but its meaning emerges through stories drawn from the lives of women across the nation Is Marriage for White People frames the stark predicament that millions of black women now face marry down or marry out At the core of the inquiry is a paradox substantiated by evidence and experience alike If more black women married white men then more black men and women would marry each other This book not only sits at the intersection of two large and well established markets race and marriage it responds to yearnings that are widespread and deep in American society The African American marriage decline is a secret in plain view about which people want to know more intertwining as it does two of the most vexing issues in contemporary society The fact that the most prominent family in our nation is now an African American couple only intensifies the interest and the market A book that entertains as it informs Is Marriage for White People will be the definitive guide to one of the most monumental social developments of the past half century

**Violence as Seen Through a Prism of Color** Letha A See, 2018-12-20 So many parts of society target citizens of color for violence what can be done Violence as Seen Through a Prism of Color examines violence from a structural perspective including violence in prisons schools and colleges churches homes and within political corporate structures This unique hard hitting book argues that individual violence stems from the structure of our society and its institutions Most of the contributors are African American educators and practitioners who have a thorough understanding of structural violence Some have experienced political violence others have expert knowledge of structural violence within the criminal justice system educational institutions and elsewhere even in churches and homes Their writings are undeniably unflinchingly authentic it is impossible not to be moved and enraged by what they have to say The good news is that in addition to calling attention to the structural violence in our society they provide excellent insights on how the situation might be resolved Violence as Seen Through a Prism of Color shows that much of the violence within the criminal justice system stems from decisions made at the highest levels of government that minority offenders are much

more frequently convicted and more harshly sentenced than their white counterparts how cultural racism contributes to the construction of motives for lynching hate crime and police violence against Americans of color such as Abner Louima Amadou Diallo and Rodney King how the judicial system encourages black on black violence by neglecting to halt criminal activities in non white neighborhoods how in the words of Mahatma Gandhi Poverty is the worst form of violence You ll also learn how corporations are amassing great wealth through privatizing prisons and conscripting the labor of non violent African American prisoners how racial profiling affects people of color how the media has exploited black men imprisoned for minor drug offenses how and why violence occurs in and against the black church Helpful charts and tables like one that names the corporations that use prison labor supplement the material you ll be surprised at what you learn Extensive references are included at the end of each chapter

Perry, 2020-10-30 *Black Love Matters* is an in depth qualitative analysis that focuses on a diverse group of adult black men and their attitudes towards behavior in marriage and romantic relationships To give voice to the men's narratives *Black Love Matters* follows the men for four years chronicling the experiences and the circumstances shaping their relationship trajectories Highlights include discussions related to the roles that sex infidelity intimacy trauma family of origin masculinity and environmental factors play in the men's attitudes and behaviors Given the dearth of literature on black men featuring first hand accounts from them *Black Love Matters* makes a significant contribution to the existing literature that seems to be disproportionately focused on implicating black men in discussions of what ails their families and communities **Shrinking Violets and Caspar Milquetoasts** Patricia McDaniel, 2003-11 Since World War II Americans attitudes towards shyness have changed The women's movement and the sexual revolution raised questions about communication self expression intimacy and personality leading to new concerns about shyness At the same time the growth of psychotherapy and the mental health industry brought shyness to the attention of professionals who began to regard it as an illness in need of a cure But what is shyness How is it related to gender race and class identities And what does its stigmatization say about our culture In *Shrinking Violets and Caspar Milquetoasts* Patricia McDaniel tells the story of shyness Using popular self help books and magazine articles she shows how prevailing attitudes toward shyness frequently work to disempower women She draws on evidence as diverse as 1950s views of shyness as a womanly virtue to contemporary views of shyness as a barrier to intimacy to highlight how cultural standards governing shyness reproduce and maintain power differences between and among women and men *Eight Propositions* Joe L. Rempson, 2020-11-19 Rempson takes issue with those who lay the plight of African Americans on racism not seeing it today as a major obstacle to black progress Rather he traces the origin back to

what he terms the African American Garden of Eden In it W E B Dubois outlasted Booker T Washington and fathered a tradition which Rempson argues has produced a victim identity and an emphasis on the system rather than the self Only black males offer a way out he declares because it is entirely our black males who are keeping us down and curtailing our progress in contrast to black females who are doing OK They are plagued by what Rempson calls the African American Male School Adaptability Crisis AMSAC Their academic performance ranks at the bottom alone below black female students and below white Asian and Hispanic male students In large urban areas their high school dropout rate is 59 percent and nationally they lag behind in college attendance and graduation rates The outcome Rempson argues is dysfunctionality and the existence of hedonistic norms which hinder family and community stability But while black males are the problem Rempson contends it is nevertheless only they who can solve it because research and experience show that it takes males to bring up and change other males Though intended for everyone he therefore writes his book to his fellow advantaged black males and makes a passionate plea for them to step up and with the help of black females and of the nation take the lead As their guide he has formulated eight propositions Arrived at through an examination of impressively extensive data from numerous sources and disciplines they are a marked departure from the customary Most strikingly delicate matters such as those which pertain to intelligence quotient IQ and culture are openly confronted and dealt with But Rempson writes unless confronted we will not solve our problems Nor he continues can we solve them unless we cut the umbilical cord to white America We have no right to expect it to be our savior nor are we justified in perceiving it as our oppressor Forcefully and finely written Rempson s book is a singular and courageous contribution Alone his eight propositions make it a worthy read
