Lake Victoria Monitored from Space Joseph Awange, 2020-12-17 This book employs a suite of remotely sensed products and advanced technologies to provide the first comprehensive space based sensing of Lake Victoria the world's second largest freshwater lake that supports a livelihood of more than 42 million people modulates regional climate but faces myriads of challenges Proper understanding of the lake and changes in its physical dynamics e.g. water level shorelines and areal dynamics resulting from the impacts of climate variation and climate change as well as anthropogenic e.g. hydropower and irrigation is important for its management as well as for strategic development before during and after climate extremes e.g. floods and droughts in order to inform policy formulations planning and mitigation measures Owing to its sheer size and lack of research resources commitment by regional governments that hamper its observations however it is a daunting task to undertake studies on Lake Victoria relying solely on in situ boots on the ground measurements which are sparse missing in most cases inconsistent or restricted by governmental red tapes To unlock the potentials of Lake Victoria this book argues for the removal of obsolete Nile treaties signed between Britain Egypt and Sudan in the 1920s and 1950s which prohibits its utilization by the upstream countries The book is useful to those in water resources management and policy formulations hydrologists environmentalists engineers and researchers In a unique cross disciplinary approach the Book articulates the various climatic impacts and explanations from natural and anthropogenic origins which affected Lake Victoria and its vicinity including the drastic increase and depletion of water level in the Lake and dams floods and droughts water quality security crop health food security and economic implications With no exception as in his many publications Joseph L. Awange used data analysis methodologies including filtering adjustment theory and robust statistics to quantify the hydrologic and other parameters and their estimated uncertainties The Book is recommended for readers from a diverse disciplines including physical and social sciences policy law engineering and disaster management Professor C. K. Shum, Ohio State University

Urban Poverty and Climate Change Manoj Roy, Sally Cawood, Michaela Hordijk, David Hulme, 2016-04-20 This book deepens the understanding of the broader processes that shape and mediate the responses to climate change of poor urban households and communities in Asia Africa and Latin America Representing an important contribution to the evolution of more effective pro-poor climate change policies in urban areas by local governments national governments and international organisations this book is invaluable reading to students and scholars of environment and development studies

Food Security Policy, Evaluation and Impact Assessment Sheryl L. Hendriks, 2019-12-06 This book offers an essential comprehensive yet accessible reference of contemporary food

security discourse and guides readers through the steps required for food security analysis Food insecurity is a major obstacle to development and achievement of the Sustainable Development Goals It is a complex issue that cuts across traditional sectors in government and disciplines in academia Understanding how multiple elements cause and influence food security is essential for policymakers practitioners and scholars This book demonstrates how evaluation can integrate the four elements of food security availability access nutrition and resilience and offers practical tools for policy and programme impact assessment to support evidence based planning Aimed at researchers postgraduates and those undertaking professional development in food studies agricultural economics rural development nutrition and public health the book is key reading for those seeking to understand evidence based food security analysis *Monitoring and evaluation of farm sustainability in the context of climate-smart agriculture interventions* Colozza, D. (ed.); Schnetzer, J. (ed.); Sessa, R. (ed.), This publication represents a first step towards an updated and more holistic take on the original Climate Smart Agriculture concept that is more attentive to the multiple interconnected dimensions of sustainability and that acknowledges the synergies and trade offs between production goals environmental conservation and social equity The methodology it describes will guide national and local governments project staff and researchers in supporting small scale producers in a more effective and targeted way and ultimately help them reap the benefits from more resilient agricultural practices that increase the productivity of their systems in a sustainable way *Food Security and Nutrition* Charis M. Galanakis, 2020-10-17 Food and nutrition security identified via availability access utilization and stability and transitions to sustainable food systems are major discourses in the agro food arena as many countries today experience different forms of malnutrition simultaneously such as child undernutrition anemia among women and adult obesity Meanwhile the triple burden of malnutrition undernutrition overnutrition and micronutrient deficiency is still widespread Food Security and Nutrition explores integrated context specific approaches to food security challenges emphasizing nutrition security as an integral component and addressing the implications of food content to food and nutrition security policies Providing insight into these challenges through agricultural policy nutritional geographic and sustainability lenses Food Security and Nutrition is a valuable reference for food scientists and nutrition researchers working in food supply food security and nutrition security and policy makers investors and other decision makers seeking to address food insecurity around the world Addresses nutrition security as part of the overall challenge of food security Explores contributing factors that impact both food and nutrition security Presents insights into effective policy development and implementation *The National Geographical Journal of India* ,2004 Improving Food Security of the Poor Joachim Von Braun, 1992 Conceptual framework for food security Dimensions of the food security problem Review of policies and programs for improving household food security Principles and priorities for policy actions *Evaluation of the project "Strengthening the adaptive capacity and resilience of rural communities using micro watershed approaches to climate change and variability to attain sustainable*

food security in Cambodia” Food and Agriculture Organization of the United Nations ,2021-01-29 Cambodia is among the Least Developed Countries that continue to struggle with serious environmental issues among which are climate change water resources and land degradation The project implemented from 2014 to 2020 contributed to build the adaptive capacity of rural communities and reduce their vulnerability to climate change through micro watershed management and climate resilient agriculture practices through interventions at national sub national and community levels It was designed to address barriers at all levels local to national stemming from lack of awareness knowledge understanding and capacity concerning climate change adaptation and the absence of alternative livelihoods particularly affecting rural women The evaluation found that the project activities made some important steps in contributing to reducing vulnerability and increasing resilience for climate change adaptation in the pilot communes While the project managed to implement many of the outputs a number of issues and delays limited the effectiveness on the ground of this innovative yet ambitious project
