Emmett,2018-04-20 What can a pesticide pump a jar full of sand or an old calico print tell us about the Anthropocene the age of humans Just as paleontologists look to fossil remains to infer past conditions of life on earth so might past and present day objects offer clues to intertwined human and natural histories that shape our planetary futures In this era of aggressive hydrocarbon extraction extreme weather and severe economic disparity how might certain objects make visible the uneven interplay of economic material and social forces that shape relationships among human and nonhuman beings *Future Remains* is a thoughtful and creative meditation on these questions The fifteen objects gathered in this book resemble more the tarots of a fortuneteller than the archaeological finds of an expedition they speak of planetary futures Marco Armiero Robert S Emmett and Gregg Mitman have assembled a cabinet of curiosities for the Anthropocene bringing together a mix of lively essays creatively chosen objects and stunning photographs by acclaimed

relationships their expectations from the past as they remember them Typically they had hopes and dreams for their future together When these are dashed it occurs to them that they were better off before they got hitched It is also about the fact that when love befalls us we lose our bearings Love is blind and all that We drift into the conventional fairy tale about living happily ever after Thats to be desired But the fairy tale ends with that line It never tells us what we need to do or be in order to live happily ever after Under the spell of the fairy tale which is basic fare in various forms in our culture we set off happily enough But how is it possible to maintain the delusion of the love state in the banality of the everyday life that inevitably ensues Who told us that making a living or keeping a house in order is a far different world than a wedding Who told us that babies rule the house unless they are tended by someone else Copulate we apparently must But that has consequences that are not a part of the fairy tale So people end up on the other side of the mirror The world is not about lovers the realization creeps upon us It is about 40 000 other things And those have to be dealt with most often before anything else Thus the title And They Lived Happily Ever Before Imagination and reality are often two very different things This book answers the question What Does Love Have to Do with It The answers may surprise you But they will make love affairs that end in marriage far better than you might even imagine they could be *Macmillan Dictionary for Children* Christopher G.
