Development Monks in Northeast Thailand Phinit Lāpthanānon, 2012 Co published with Trans Pacific Press Australia

Forest Monks and the Nation-state J. L. Taylor, 1993 This book is a detailed study on the ascetic forest monk tradition in the Lao speaking provinces of northeastern Thailand in the wake of the early twentieth century politico religious reforms The narrative alternates between the periphery and the capital dealing with historic transformations and persistencies in the social field of wandering forest monks as well as the contemporary impact of this monastic tradition in the wider social and political milieu The writer uses original ethnographic materials and provides a rare insight into the formation of monastic lineages and the local politico religious histories of present day northeastern Thailand **Buddhism and Politics in Thailand** Somboon Suksamran, 1982 This book studies the interaction of the Sangha the community of monks with politics and socio political change in Thailand Although the interaction of Buddhism and politics is recognized it is seldom acknowledged and frequently denied This paradox derives from two deeply rooted notions first that politics is the dirtiest business second that only pure Buddhism and a sound Sangha can ensure the moral welfare of the nation and their preservation in unadulterated form is critical for the survival of national unity **Comparative Juvenile criminal justice** Alexandre Chitov, 2016 The book deals with three interconnected themes The first is the description of main features of juvenile criminal justice in such diverse countries as Thailand China Germany France and England The second is the argument that education is the essential principle of any juvenile delinquency justice system and that the most important part of education must be moral instruction of young offenders The third theme of the book is that world religions are indispensable for carrying out successful educational programs directed towards the formation of good conscience among young people Three religious traditions are explored Buddhism Confucianism and Christianity The presentation of the educational potential of the world religions draws upon the experience of the author as a volunteer teacher in a Thai juvenile correction institution **Muslim-Christian Conflicts** Suad Joseph, 2019-10-10 What does religion mean in people's daily lives In what ways is it a component of ethnic identity How do religious identities and structures relate to other social identities and structures and to political and economic institutions and behavior How can Muslim-Christian relations be understood in the context of the emergence of the world capitalist system These are some of the questions addressed by the authors of this volume Their collective goal growing out of a desire to understand the continuing war in Lebanon is to study the circumstances under which religious differences become politically salient Foreign Affairs Research Papers Available
