Klijanienko, Beatrix Cochand-Priollet, Olivier Choussy, Wojciech Golusiński, 2024-12-23 This book gathers the consensus  
recommendations on diagnostic procedures in patients with neck masses by the European Head and Neck Society European  
Federation of Cytology Societies European Society of Hybrid Imaging and International Melanoma Pathology Study Group  
Because of the variability of anatomical structures and the richness of histological tissues the diagnostic process for neck  
masses is often complex The diagnostic process depends on the habits of oncological centers the experience of specialists  
and particular standards In reality there is no international recommendations which would allow to define the optimal and  
least invasive modalities for carrying out a rapid and accurate diagnosis Written by the most eminent specialists of different  
profiles and geographic areas who present and analyze different technical modalities the book combines the different points  
of view and defines the agreed upon optimal technique Each chapter is short informative well referenced and the main  
messages are placed in tables and boxes The book is addressed to oncologists radiologists nuclear physicians ENT surgeons  
surgical and cyto pathologists This work is under the patronage of the International Academy of Cytology IAC **Singapore
