relationship of art to archaeology Trever argues that early coastal artistic traditions cannot be reduced uncritically to interpretations based in much later Inca histories of the Andean highlands Instead the author seeks the origins of Moche mural art and its emphasis on figuration in the deep past of the Pacific coast of South America Image Encounters shows how formal transformations in Moche mural art before and after the seventh century were part of broader changes to the work that images were made to perform at Huacas de Moche El Brujo Pa amarca and elsewhere in an increasingly complex social and political world In doing so this book reveals alternative evidentiary foundations for histories of art and visual experience
