Revenge of the Movie Monster Models Mark C. Glassy, 2024-05-29 Science fiction and fantasy movies of the 20th century feature many iconic figures and monsters, and the ability to create and own many of them in the form of models provides fans with an opportunity to mingle amongst the greats and not-so-greats. This book is a collection of figures and dioramas of monsters from both science fiction and fantasy films. Models are presented in chronological order, decade by decade, starting with films in the silent era and running through the end of the century. The building and painting of the figures and dioramas of various scenes from these films, some more accurately than others, provides an opportunity to preserve key moments in these movies.

Movie Monsters of the Deep Faith Roswell, 2024-07-30 Is there a shark movie that is scarier than *Jaws*? What is the sneaky secret hidden in the Loch Ness monster's name? How did the Gill man in *Creature from the Black Lagoon* become a romantic hero? Do mermaids count as sea monsters? What terrifying sea creature was discovered to really exist and just what on earth is a globster? From Kraken to kaiju, *Open Water* to *The Shallows*, monsters of the deep have fascinated and horrified us for centuries. There's even a name for the fear of deep bodies of water: *thalassophobia*. Humans have a natural fear of predators in the water, and yet we just can't stop thinking about them. There are a lot of deep water monster movies out there: good, bad, strange, and so bad it's good. This book has collected some of the best, worst, and most interesting out there to tell you about. If you ever wanted to know your crocodile from your Cthulhu and find out how they make the monsters come alive, whether you like your monsters in the ocean or in lakes based on real animals or totally made up with fins or tentacles, one head or five, if you love your movie monsters of the deep, then this book was written for you. **Science Fiction Film Directors, 1895-1998**
