Monsters of Contact Mark van de Logt, 2018-06-21 A murderous whirlwind an evil child abducting witch woman a masked cannibal terrifying scalped men a mysterious man slaying flint creature the oral tradition of the Caddoan Indians is alive with monsters Whereas Western historical methods and interpretations relegate such beings to the realms of myth and fantasy Mark van de Logt argues in Monsters of Contact that creatures found in the stories of the Caddos Wichitas Pawnees and Arikaras actually embody specific historical events and the negative effects of European contact invasion war death disease enslavement starvation and colonialism Van de Logt examines specific sites of historical interaction between American Indians and Europeans from the outbreaks and effect of smallpox epidemics on the Arikaras to the violence and enslavement Caddos faced at the hands of Hernando de Soto's expedition and Wichita encounters with Spanish missionaries and French traders in Texas In each case he explains how through Indian metaphor seemingly unrelated stories of supernatural beings and occurrences translate into real people and events that figure prominently in western U S history The result is a peeling away of layers of cultural values that for those invested in Western historical traditions otherwise obscure the meaning of such tales and their monsters Although Western historical methods have become the standard in much of the world van de Logt demonstrates that

indigenous forms of history are no less valuable and that oral traditions and myths can be useful sources of historical information A daring interpretation of Caddoan lore *Monsters of Contact* puts oral traditions at the center of historical inquiry and in so doing asks us to reconsider what makes a monster *Prehistoric Monsters* Allen A. Debus,2014-11-21 Over centuries discoveries of fossil bones spawned legends of monsters such as giants and dragons As the field of earth sciences matured during the 19th century early fossilists gained understanding of prehistoric creatures such as Tyrannosaurus Triceratops and Stegosaurus This historical study examines how these genuine beasts morphed in the public imagination into mythical powerful engines of destruction and harbingers of cataclysm taking their place in popular culture film and literature as symbols of lost worlds where time stands still **Extinct Monsters** Henry Neville Hutchinson,1893 List of British localities where remains of the mammoth have been discovered p 258 260 Emblematic Monsters A.W. Bates,2016-08-29 In early modern Europe monstrous births were significant events that were seen alive by many people and dissected embalmed and collected after death Emblematic Monsters is a social history of monstrous births as seen through popular print scholarly books and the proceedings of learned societies Representations of monsters are considered in the context of their roles as wonders and emblems and studies of the anatomy of monsters are discussed along with contemporary theories of their origin By approaching accounts of monstrous births not only as a literary form but also as descriptions of real life cases similarities between the pre scientific recording of wonders and the scientific case report can be explored Most impressively A W Bates draws upon his own experience of diagnosis of birth defects to summarise more than two hundred original descriptions of monstrous births and compare them with modern diagnostic categories Emblematic Monsters is an up to date approach to a classical yet under explored subject gruesome compelling and monstrous **Doctor Who: Who-ology** Cavan Scott,Mark Wright,2013-06-07 Test your knowledge of the last Time Lord and the worlds he s visited in Who ology an unforgettable journey through over 50 years of Doctor Who Packed with facts figures and stories from the show s galactic run this unique tour of space and time takes you from Totters Lane to Heaven itself taking in guides to UNIT call signs details of the inner workings of sonic screwdrivers and a reliability chart covering every element of the TARDIS Now fully updated to cover everything through to the 12th Doctor s final episode and with tables charts and illustrations dotted throughout as well as fascinating lists and exhaustive detail you won t believe the wonders that await The Marquis Volume 1: Inferno Guy Davis,2009-08-11 In eighteenth century Venisalle faith governs life and death and the guilty hide their shame behind masks showing their faces only in the secret rites of the confessional It is to this stronghold of the Inquisition that the souls of Hell have escaped to possess the living spreading sin murder and chaos Amid the carnage one man is blessed with the clarity to recognize the demons that prey on his countrymen and the means to return them to the fires of Hell But as the stakes rise the lines separating good and evil begin to blur and the Marquis the dark avenger whom even demons fear to cross finds himself torn between the blind faith that has defined his life

and the bitter truths exposed under his new sight *Invaders* W. P. Kinsella, Jim Shepard, Steven Millhauser, Max Apple, Amiri Baraka, 2016-06-20 The invasion of the future has begun Literary legends including Steven Millhauser Junot Diaz Amiri Baraka and Katharine Dunn have attacked the borders of the every day Like time traveling mad scientists they have concocted outrageous creations from the future They have seized upon tales of technology gone wrong and mandated that pulp fiction must finally grow up In these wildly speculative stories you will discover the company that controls the world from an alley in Greenwich Village You'll find nanotechnology that returns memories to the residents of a nursing home You'll rally an avian like alien to become a mascot for a Major League Baseball team The Invaders are here But did science fiction colonize them first *Monstrosity from the Inside Out* Teresa Cutler-Broyles, Marko Teodorski, 2019-01-04 Emerging from darkness daring to take form and become something more than the Other monsters stalk these pages shifting form in true monstrous fashion as they inhabit literature and film history and parallel communities modelled after our own They become enmeshed in popular music run rampant through cities take androgynous form to rally for their own identities their own futures and their own families and they hold up mirrors while we are caught shattering our sense of Self Both the past and the future are rich fodder for the evil that monsters do and from freak show to homunculus to serial killer to cyborg they remind us that they are never far from sight and that we cannot look away even if we wish to *Monstrosity from the Inside Out* takes as the paradox that monsters are simultaneously impossible and very much a part of what it means to be human
