Bradshaw, 2013-06-17 During the five decades since its origin law and economics has provided an influential framework for addressing a wide array of areas of law ranging from judicial behaviour to contracts This book will reflect the first ever forum for law and economics scholars to apply the analysis and methodologies of their field to the subject of wildfire The only modern legal work on wildfire the book brings together leading scholars to consider questions such as How can public policy address the effects of climate change on wildfire and wildfire on climate change Are the environmental and fiscal costs of ex ante prevention measures justified What are the appropriate levels of prevention and suppression responsibility borne by private state and federal actors Can tort liability provide a solution for realigning the grossly distorted incentives that currently exist for private landowners and government firefighters Do the existing incentives in wildfire institutions provide incentives for efficient private and collective action and how might they be improved **Mapping Wildfire Hazards and Risks** R Neil Sampson, R. Dwight Atkinson, Joe W. Lewis, 2000-10-10 Develop accurate computer models to determine wildfire risks and controlled burn benefits Although scientists now recognize that fire is essential to many ecosystems the ecological and political issues of managing wildfire continue to be vexing Mapping Wildfire Hazards and Risks offers multiple perspectives on using a Geographic Information System GIS for more effective wildfire management This innovative technology is the ideal tool to organize and display all the information available so authorities can make informed judgments based on all the facts Because the authors are not merely theorizing but discussing the GIS they are actually building and using Mapping Wildfire Hazards and Risks offers practical ideas and perspectives including specific information on the modeling approach and kinds of data utilized valuable discussions of the social and environmental factors included in the model techniques for predicting the effects of wildfire on neighborhoods soil erosion sedimentation and air quality predictions of long term ecosystem recovery given wildfires of different sizes and intensities maps charts tables and formulas to make the process of building a GIS understandable and accessible Mapping Wildfire Hazards and Risks is a compilation of

the ideas of federal and state agencies universities and non governmental organizations on how to rank and prioritize forested watershed areas that are in need of prescribed fire This book provides the essential information for deciding how to set priorities for wildfire management that might reduce risks or lower future damages *The Top 10 Worst Wildfires in American History* Larry Slawson,2022-07-06 This eBook examines and ranks the 10 worst wildfires in American history It provides a brief overview of each fire followed by a discussion of their overall impact **Management challenges on Montana's national forests** United States. Congress. House. Committee on Resources,2003 **Montana's Waldron Creek Fire** Dr. Charles Palmer,2015-11-02 On August 25 1931 five men died fighting the devastating Waldron Creek Fire west of Choteau Montana Lacking training and preparation Herbert Novotny Frank Williamson Hjalmer G Gunnarson Ted Bierchen and Charles Allen dashed into the flames and never stood a chance The Teton County coroner added insult to injury noting that each had no one to blame but himself Three men were buried in unmarked graves Records show that the body of the fifth was returned to his family but no burial site is known Only one has a headstone National Smokejumper Association chief historian Dr Charles Palmer shines a light on this important story finally honoring the heroic sacrifice that led to critical changes in wildland firefighting Protecting People and Homes from Wildfire in the Interior West ,1988 **The Colorado Plateau VI** Laura Foster Huenneke,Charles van Riper,Kelley Ann Hays-Gilpin,2015-06-18 With a plethora of updates and insights into land conservation and management questions on the Colorado Plateau The Colorado Plateau VI shows how new technologies for monitoring spatial analysis restoration and collaboration improve our understanding management and conservation of outcomes at the appropriate landscape scale for the Colorado Plateau Provided by publisher Australia's Megafires Libby Rumpff,Sarah M. Legge,Stephen van Leeuwen,Brendan A. Wintle,John C.Z. Woinarski,2023-02-01 The Australian wildfires of 2019 20 Black Summer were devastating and unprecedented These megafires burnt more than 10 million hectares mostly of forests in southern and eastern Australia Many of the fires were uncontrollable These megafires affected many of Australia s most important conservation areas and severely impacted threatened species and ecological communities They were a consequence of climate change and offered a glimpse of how this is likely to continue to affect our future Australia s Megafires includes contributions by more than 200 researchers and managers with direct involvement in the management and conservation of the biodiversity affected by the Black Summer wildfires It provides a comprehensive review of the impacts of these fires on all components of biodiversity and on Indigenous cultural values These fires also triggered an extraordinary and highly collaborative response by governments NGOs Indigenous groups scientists landholders and others seeking to recover the fire affected species and environments to restore Country This book documents that response It draws lessons that should be heeded to sustain that recovery and to be better prepared for the inevitable future comparable catastrophes Such lessons are of global relevance for wildfires increasingly threaten biodiversity and livelihoods across the globe Smoke Management Guide for Prescribed and Wildland Fire ,2001 **Wildfire Risk** Wade E. Professor

Martin,Carol Professor Raish,Brian Professor Kent,2010-09-30 The continuing encroachment of human settlements into fire prone areas and extreme fire seasons in recent years make it urgent that we better understand both the physical and human dimensions of managing the risk from wildfire Wildfire Risk follows from our awareness that increasing public knowledge about wildfire hazard does not necessarily lead to appropriate risk reduction behavior Drawing heavily upon health and risk communication and risk modeling the authors advance our understanding of how individuals and communities respond to wildfire hazard They present results of original research on the social economic and psychological factors in responses to risk discuss how outreach and education can influence behavior and consider differences among ethnic racial groups and between genders with regard to values views and attitudes about wildfire risk They explore the role of public participation in risk assessment and mitigation as well as in planning for evacuation and recovery after fire Wildfire Risk concludes with a dedicated section on risk modeling with perspectives from decision sciences geography operations research psychology experimental economics and other social sciences *International Handbook of Disaster Research* Amita Singh,2023-09-30

This handbook is a comprehensive source of information analysis and directions in disaster studies It goes beyond the oft explored issues of management and science related to the topic and explores policies governance law and decision making combined with the processes of implementation and enforcement all the while integrating the latest science and technology updates related to the topic such as artificial intelligence and early warning systems It brings together studies which relate to sociology politics and institutional economics which work under the impact of resource availability issues of leadership and international laws Disasters are trans boundary and disaster studies are trans disciplinary It is this aspect which would form the fulcrum of contributions and present a new refreshing and innovative design for the handbook The transformatory pedagogy which started with the Hyogo Framework for action 2005 2015 and The Sendai Framework for Disaster Risk Reduction 2015 2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks The four priority areas around which the book would revolve are i Understanding disaster risk ii Strengthening disaster risk governance to manage disaster risk iii Investing in disaster reduction for resilience and iv Enhancing disaster preparedness for effective response and to Build Back Better in recovery rehabilitation and reconstruction Wildfire ,2000

Montana Wildfire Rebecca Sinclair,1991 Following her father s sudden death Amanda Lennox has no money for the long trip from Boston to the ranch she s inherited in faraway Seattle Then an advertisement for a wilderness expert to escort an eleven year old boy to Montana catches Amanda s eye and the adventurous young woman jumps at the chance never guessing she ll end up lost in the wilds of Idaho with a twisted ankle Half breed ranch hand Jacob Blackhawk Chandler knows from experience that prissy white princesses mean trouble haughty citified and utterly unequipped to survive in the wide open country He can t leave the lovely minx alone and hurt but he sure wouldn t be taken in by her sweet smile either
