Montessori,2016-09-16 Dr Montessori has performed a real service in preparing this guide to her method The handbook will now proceed to take its place as the real exposition of the Montessori system Boston Transcript A full and clear account of the famous method of child education Saturday Review Contains much the same material as did The Montessori Method but in a clear form Atheneum The number of books on Dr Montessori s new educational theories continues to increase We now have Dr Montessori s Own Handbook of the system specially written by the expert herself as a guide to teachers and parents The American Review of Reviews Many enthusiastic prophets have arisen to expound Dr Montessori s ideas to an interested public but this manual for classroom or home bears the thumb print of authority Dr Montessori herself briefly outlines the system exhaustively set forth in her Montessori Method describes her apparatus and explains very clearly its use She also tells again the surprising results the spontaneous discipline and obedience obtained among children from three to six in the Children s House where the organization of their work is complete and where all cause of rebellion being eliminated their freedom is almost absolute Dr Montessori s means include an environment suited to a child s physical needs and didactic material fitted to his intellectual wants through which he may train his senses by the exercise of observation comparison and judgment quicken his psychic qualities and become master of mind and body She would have the child s eye discover that control of the error in placing his cylinders or geometrical insets lies in the material itself The author insists that any one who would guide the child in use of the sensory exercise should first experiment with the material herself and realize the difficulties the child will encounter The book would help the mother who was heard to say I became so interested in reading The Montessori Method I sent for the whole outfit It s come but I haven t dared even show it to Jane Home Progress Supplements by a clearer and more simple description of author s famous method of child education New York State Library Ninety Seventh Annual Report An authentic manual of the Montessori system written by Dr Montessori herself as a guide to teachers and parents It is a concisely written volume of little more than a hundred pages which contains a clear account of the method and includes a description of the Montessori apparatus with instructions for its use Booklist **A Montessori**

growing up I therefore recall here as an eloquent symbol Helen Keller and Mrs Anne Sullivan Macy who are by their example both teachers to myself and before the world living documents of the miracle in education In fact Helen Keller is a marvelous example of the phenomenon common to all human beings the possibility of the liberation of the imprisoned spirit of man by the education of the senses Here lies the basis of the method of education of which the book gives a succinct idea If one only of the senses sufficed to make of Helen Keller a woman of exceptional culture and a writer who better than she proves the potency of that method of education which builds on the senses If Helen Keller attained through exquisite natural gifts to an elevated conception of the world who better than she proves that in the inmost self of man lies the spirit ready to reveal itself Helen clasp to your heart these little children since they above all others will understand you They are your younger brothers when with bandaged eyes and in silence they touch with their little hands profound impressions rise in their consciousness and they exclaim with a new form of happiness I see with my hands They alone then can fully understand the drama of the mysterious privilege your soul has known When in darkness and in silence their spirit left free to expand their intellectual energy redoubled they become able to read and write without having learnt almost as it were by intuition they only they can understand in part the ecstasy which God granted you on the luminous path of learning Maria Montessori **Dr.**
