Against Creativity Oli Mould,2018-10-09 Everything you have been told about creativity is wrong From line managers corporate CEOs urban designers teachers politicians mayors advertisers and even our friends and family the message is be creative Creativity is heralded as the driving force of our contemporary society celebrated as agile progressive and liberating It is the spring of the knowledge economy and shapes the cities we inhabit It even defines our politics What could possibly be wrong with this In this brilliant counter intuitive blast Oli Mould demands that we rethink the story we are being sold Behind the novelty he shows that creativity is a barely hidden form of neoliberal appropriation It is a regime that prioritizes individual success over collective flourishing It refuses to recognise anything job place person that is not profitable And it impacts on everything around us the places where we work the way we are managed how we spend our leisure time Is there an alternative Mould offers a radical redefinition of creativity one embedded in the idea of collective flourishing outside the tyranny of profit Bold passionate and refreshing Against Creativity is a timely correction to the doctrine of our times
