Through masterful storytelling and intricate narrative layers, Conrad evokes tensions between personal integrity and societal expectations, illustrating the devastating consequences of perceived honor in a complex, morally ambiguous world. Gregg,2007-02-15 In the last fifteen years psychologists have rediscovered culture and its influence on emotion thought and
self Many researchers have come to the conclusion that the world s cultures can be ranked according to the degree to which
they are individualist or collectivist with Western cultures falling at the individualist end and non Western cultures at the
collectivist end These scholars argue that while individualist cultures give rise to independent selves leading Westerners to
think and act autonomously collectivist cultures foster interdependent selves leading non Westerners embedded in social
relationships to think and act relationally Culture and Identity in a Muslim Society presents an alternative to the individualist
collectivist approach to identity Unlike most psychological and anthropological studies of culture and self Gary Gregg s work
directly investigates individuals using study of lives style interviews with young adults living in villages and small towns in
southern Morocco Analyzing these young adults life narratives Gregg builds a theory of culture and identity that differs from
prevailing psychological and anthropological models in important respects In contrast to modernist theories of identity as
unified the life narratives show individuals to articulate a small set of shifting identities In contrast to post modern theories
that claim people have a kaleidoscopic multiplicity of fluid identities the narratives show that the identities are integrated by
repeated use of culturally specific self symbols metaphors and story plots Most importantly the life narratives show these
young Moroccans self representations to be pervasively shaped by the volatile cultural struggle between Western style
modernity and authentic Muslim tradition Offering a new approach to the study of identity the volume will be of interest to
