Macann, 2012-12-06 For some twenty years now I have been working on a philosophical programme which falls into two parts a systematic metaphysics to be entitled *Being and Becoming* conceived in the general framework of ontological phenomenology but employing what I call a genetic methodology and an historical interpretation designed to support and confirm the ontological philosophy in question The historical part of the overall programme was originally conceived in the form of an Epochal Interpretation of the history of modern philosophy from Descartes on Part of the material accumulated towards such an Epochal Interpretation has however been deployed rather differently First the Kant material has already been turned into an interpretive transformation of Kant's Critical Philosophy Second the material on Husserl's Phenomenological Philosophy now forms the basis of the present study The interpretive transformation of Kant's Critical

philosophy was published by Winter Verlag in the context of a Humboldt fellowship In that work I took Heidegger's Kant and the Problem of Metaphysics as my model Like Heidegger I subjected the Critical Philosophy to an interpretive procedure as a result of which I finished up with structures matching and reflecting the basic structures of my own genetic ontology But I sought to overcome certain limitations inherent in the Heideggerian project *Transcendence in Philosophy and Religion* James E. Faulconer, 2003-04-16 Can transcendence be both philosophical and religious Do philosophers and theologians conceive of the same thing when they think and talk about transcendence Philosophy and religion have understood transcendence and other matters of faith differently but both the language and concepts of religion including transcendence reside at the core of postmodern philosophy Transcendence in Philosophy and Religion considers whether it is possible to analyze religious transcendence in a philosophical manner and if so whether there is a way for phenomenology to think transcendence directly Attention is devoted to the role of French philosophy particularly the work of Levinas Ricoeur Derrida and Marion in defining recent debates in the philosophy of religion and posing new ways of thinking about religious experience in a postmodern world **Income Tax Regulations As of January 2007** CCH Tax Law, 2007-02-01 *A system of universal geography, or* Conrad Malte-Brun, 1834 *A System of Universal Geography, Or, A Description of All the Parts of the World, on a New Plan, According to the Great Natural Divisions of the Globe* Conrad Malte-Brun, 1834
