(SPD-9)** Raymond Grew, 2015-03-08 As the last volume in the series sponsored by the SSRC Committee on Comparative Politics this book reflects as does the preceding volume the Committee's decision to devote renewed attention to the original state building experiences of the West after having studied political development in the newer countries of the Third World The contributors attempt to discern patterns of historical change in the different sequences of crises that affect all states in their development Following an introductory and theoretical statement by Raymond Grew each chapter focuses on a different country or area Each of these essays applies and evaluates the Committee's concept of crises of development i.e crises of identity legitimacy participation penetration and distribution The distinguished historians and political scientists who contribute to the volume are Keith Thomas on the United Kingdom Aristide R Zolberg on Belgium Folke Dovring on Scandinavia J Rogers Hollingsworth on the United States Stanley G Payne on Spain and Portugal David D Bien on France Raymond Grew on France and Italy John R Gillis on Germany Walter M Pintner on Russia and Roman Szporluk on Poland with Lucian W Pye providing the Preface Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton

University Press since its founding in 1905 **Democratic Government in Poland** G. Sanford, 2002-07-16 Democratic government has now been entrenched in Poland An increasingly significant European actor Poland presents problematic but also stimulating challenges to new NATO and EU associates This authoritative overview examines in depth the constitutional and governmental framework in Poland since 1989 and its central political institutions mechanisms and actors Sanford demonstrates how the governmental system evolved pragmatically during the 1990s to cope with modernization and consolidated viable independent statehood consensually around Poland s hardy constitutional values **Historical Dictionary of Poland 1945-1996** Piotr Wróbel, 2014-01-27 Located between the former Soviet Union and eastern Germany Poland has the potential to become a political and economic bridge between the East and West It is crucial to European security and stabilization yet the list of reference books on recent Polish history is very short This book fills that gap providing information on Polish political economic and cultural history since 1945 Revolution and Counterrevolution in Poland, 1980-1989 Andrzej Paczkowski, 2015 Examines the 1980 Solidarity revolution in Poland the government s subsequent establishment of martial law in response in 1981 and the eventual transition to democracy in 1989 **Seeing Through the Eyes of the Polish Revolution** Jack M. Bloom, 2013-09-13 In 1980 Polish workers astonished the world by demanding and winning an independent union with the right to strike called Solidarity the beginning of the end of the Soviet empire Jack M Bloom s Seeing Through the Eyes of the Polish Revolution explains how it happened from the imposition to Communism to its end based on 150 interviews of Solidarity leaders activists supporters and opponents Bloom presents the perspectives and experiences of these participants He shows how an opposition was built the battle between Solidarity and the ruling party the conflicts that emerged within each side during this tense period how Solidarity survived the imposition of martial law and how the opposition forced the government to negotiate itself out of power 1991-1992 Brian Hunter, 2021-06-21 No detailed description available for 1991 1992 U. S. Intelligence and the Confrontation in Poland, 1980-1981 Douglas J. MacEachin, 2010-11-01 Despite the U S government s sophisticated intelligence capabilities policy makers repeatedly seemed to be caught off guard when major crises took place during the Cold War Were these surprises the result of inadequate information or rather the use made of the information available In seeking an answer to this question former CIA analyst Douglas MacEachin carefully examines the crisis in Poland during 1980 81 to determine what information the U S government had about Soviet preparations for military intervention and the Polish regime s plans for martial law and what prevented that information from being effectively employed Drawing on his experience in intelligence reporting at the time as well as on recently declassified U S documents and materials from Soviet Polish and other Eastern European archives MacEachin contrasts what was known then with what is known now and seeks to explain why despite the evidence available to them U S policy makers did not take the threat of a crackdown seriously enough to prevent it It was the mind set of those who processed the information not the lack or accuracy of information that was the fundamental problem MacEachin argues

By highlighting this cognitive obstacle his analysis points the way toward developing practices to overcome it in the future

Perspectives For Change In Communist Societies Theresa Rakowska-harmstone,Teresa Rakowska-Harmstone,2019-07-11 To what degree has political social and economic change been stimulated by the impact of the past and present policies of Communist political systems Perhaps more important to what extent has the momentum for change stimulated by past policies been frustrated by the nature of these systems This volume an interdisciplinary and international work based on a symposium presented at the October 1976 Annual Conference of the American Association for the Advancement of Slavic Studies addresses these questions The contributors collectively assess the extent of change generated by the policies of social mobilization as they are channeled and contained within the Communist political systems Clearly and perceptively they analyze selected aspects of change or its absence in the political social and economic life of the Soviet Union and Eastern Europe
