**Polar Star** Martin Cruz Smith, 2013-08-15 Don't miss the latest book in the Arkady Renko series **THE SIBERIAN DILEMMA** by Martin Cruz Smith the master of the international thriller New York Times available to order now **AN ARKADY RENKO NOVEL 2** One of those writers that anyone who is serious about their craft views with respect bordering on awe Val McDermid Makes tension rise through the page like a shark's fin Independent Arkady Renko former Chief Investigator of the Moscow Town Prosecutor's Office made too many enemies and lost the favour of his party After a self-imposed exile in Siberia Renko toils on the slime line of a factory ship in the Bering Sea But when an adventurous Georgian woman comes up with the day's catch the signs of murder are undeniable Up against the Soviet bureaucracy in a complex international web Renko must again become the obsessed dedicated cop he once was And in doing so he discovers much more than he bargained for Praise for Martin Cruz Smith The story drips with atmosphere and authenticity a literary triumph David Young bestselling author of *Stasi Child* One of those writers that anyone who is serious about their craft views with respect bordering on awe Val McDermid Cleverly and intelligently told *The Girl from Venice* is a truly riveting tale of love mystery and rampant danger I loved it Kate Furnivall author of *The Liberation* Smith not only constructs grittily realistic plots he also has a gift for characterisation of which most thriller writers can only dream Mail on Sunday Smith was among the first of a new generation of writers who made thrillers literary Guardian Brilliantly worked marvellously written an imaginative triumph Sunday Times Martin Cruz Smith's Renko novels are superb William Ryan author of *The Constant Soldier* *The Polar Star* of *Entertainment and Popular Science*, and *Universal Repertorium of General Literature*, 1829 **The Polar star, being a continuation of 'The Extractor', of entertainment and popular science**, 1829 **The Williams College Catalogue of North Polar Stars** Truman Henry Safford, 1888 **Proceedings of the Grand Lodge of Free and Accepted Masons of the State of New York** Freemasons. Grand Lodge of the State of New York, 1906 *INITIATORY ASTROLOGY The North Star and the ascension to the higher states of being. The real stellar secret of the Divine Comedy* GIACOMO ALBANO, Zoe Martinini, 2021-12-26 The readers of this book will have access to secret knowledge that has never been published before This book explains how the ascension to the stars happens from the point of view of initiatory astrology that is how to choose and use certain astrological moments for the operations of the ascent of the planes The aim is to delineate a Stellar Way for the ascent to Heaven up to the Supreme State or at least to learn how to progressively bring the consciousness to higher levels with the help of certain star maps that we will learn to create interpret and revive in our Microcosm In fact it is possible to transpose on the Celestial Sphere the traditional teachings about the higher states of being The influence of the various parts of Heaven that colors the stars differently according to the various phases of their precessional cycle is one of the important things which is entirely unknown to modern astrologers and was known only to the initiates of the most remote antiquity It confirms the existence of a secret initiatory astrology very different and much more

useful and profound than that commonly practiced The ascension to the higher states of being up to the Supreme State can take place only along the lines of the colures This supreme state is represented by the point of intersection between the two colures represented by the North Pole As we will see in the course of the book in order for this ascension to take place it is necessary that there are stars along the colures corresponding to various states of being that are like so many stations that one must pass through At the same time they are similar to vehicles that can transport us higher and higher The higher the northern declination of the stars the higher the state of being they represent not because of their own nature but because of the part of Heaven in which they are located The more one rises along the northern sky the more one enters into a subtle and etheric dimension which precisely for this reason can be inaccessible or traumatic for those who are not ready to get rid of the ego and the sense of corporeality These ascensions also require the presence of one or more planets along the colures themselves In fact our first means of transport to detach ourselves from the earth will surely be one or more planets since we cannot directly identify ourselves with the very high state of consciousness corresponding to a star We will talk about all this in a very technical and in depth way including some examples And we will do so after demonstrating how these particular stellar factors were well present and active in the periods when the greatest turning points in the history of human spirituality occurred We shall thus examine the stars of the Buddha and those of Pythagoras of Moses and Jesus and much more There are many clues that suggest that in the Commedia Dante described in the allegorical form a stellar journey very similar to the one we describe in this work It is no coincidence that Dante concludes each cantica with the word stars and it is no coincidence that the last verse of each cantica is isolated in the sense that it is not part of a triplet like all the others All this must have a precise meaning because a medieval and sapiential poet like Dante did not do anything by chance or for simply poetic reasons It is likely that Dante had access to initiatory knowledge about some traditional techniques of ascension to Heaven through the stars and that is why he included in his poem so many references to the stars closing each poem with an isolated verse ending with the word stars In Dante s time the North Star was located on the equinoctial colure and it is from the North Star that we will start to discover this secret message      **Changes in the Arctic** Ronald
