Poles Together Emergence And Development Of Political Parties In Postcommunist Poland

Petr Kopecky

Poles Together Emergence And Development Of Political Parties In Postcommunist Poland:

Centre-Right Parties in Post-Communist East-Central Europe Seán Hanley,Aleks Szczerbiak,2020-09-10 This is the first book to cover the centre right in post communist Eastern Europe It makes an vital contribution to the broader research agenda on the Central and East European centre right by focusing on one specific question why strong and cohesive centre right formations have developed in some post communist states but not others It also delves into the attempts to develop centre right parties after 1989 in four nations the Czech Republic Hungary Poland and Slovakia The authors of these fresh case studies use a common analytical framework to analyse and provide fascinating insights into the varying levels of cohesion in centre right parties across the region This volume was previously published as a special issue of the Journal of Communist Studies and Transition Politics

Political Parties and the State in Post-Communist Europe Petr Kopecky,2007-10-11 It is not possible to understand the nature and functioning of post communist political parties without understanding their relationship with the state On the one hand few parties in the region would be able to survive and perform without state resources as they lack strong roots within the wider society On the other hand the relatively weak st

Party Organization and Communication in Poland Michał Jacuński,Barbara Brodzińska-Mirowska,Anna Pacześniak,Maria Winclawska,2021-01-27 This book provides a new analytical perspective on the strategies membership and communication management of political parties in Poland The authors address why some political parties have managed to strengthen and survive while others have failed to do the same The research was carried out in the years 2016 2018 when Poland started to be seen more and more as a weakening democracy As an in depth empirically grounded single country study of party structure and communication the book gives an opportunity to draw broader conclusions about the process of party development in the Central and Eastern Europe region three decades since the beginning of democratic transition

Party Politics in New Democracies Paul Webb,Stephen White,2007-09-20 Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics The General Editors are Professor Alfio Mastropaolo University of Turin and Kenneth Newton University of Southampton and Wissenschaftszentrum Berlin The series is published in association with the European Consortium for Political Research The sister volume to Political Parties in Advanced Industrial Democracies this book offers a systematic and rigorous analysis of parties in some of the world s major new democracies Drawing on a wealth of expertise and data the book assesses the popular legitimacy organizational development and functional performance of political parties in Latin America and postcommunist Eastern Europe It demonstrates the generational differences between parties in the old and new democracies and reveals contrasts among the latter Parties are shown to be at their most feeble in those recently transitional democracies characterized by personalistic candidate centred forms of politics but in other new democracies especially those with parliamentary systems parties are more stable and institutionalized enabling them to facilitate a meaningful degree of popular choice and control Wherever

party politics is weakly institutionalized political inequality tends to be greater commitment to pluralism less certain clientelism and corruption more pronounced and populist demagoguery a greater temptation Without party democracy s hold is more tenuous Post-Communist Democracies and Party Organization Margit Tavits,2013-06-24 Margit Tavits

demonstrates that the successful establishment of a political party in a new democracy crucially depends on the strength of its organization *Elections, Parties and Representation in Post-Communist Europe* F. Millard,2016-01-08 Elections Parties and Representation in Post Communist Europe 1990 2002 stresses the ways in which the development of political parties affected the quality of democracy the nature of political representation and political accountability in the early stages of post communist politics It also analyzes the nature and consequences of the corpus of parliamentary candidates and deputies for the representation of social classes women and minorities In contrast with the wide social profile of communist parliaments politics largely became the playground of new highly educated male elites **The Regulation of Post-Communist Party**

Politics Fernando Casal Bértoa,Ingrid van Biezen,2017-11-06 The question of how political parties are and ought to be regulated has assumed an increased importance in recent years both within the scholarly community and among policy makers and politicians as the state assumes an increasingly active role in the management of and control over their behaviour and organisation This book concentrates on the regulation of political parties in the EU post communist democracies and on Bulgaria Croatia the Czech Republic Estonia Hungary Latvia Lithuania Poland Slovakia Slovenia and Romania in particular In analysing the various dimensions of party regulation it builds on the main premises derived from the neo institutionalist literature in political science concerning the ways in which the formal and informal rules and procedures may influence constrain or determine the behaviour of political actors In doing so it provides a comprehensive overview of the regulation of Eastern European political parties provided by leading experts in the field and casts theoretical and empirical light on the manner in which the constitutional and legal regulation of party organizations and finances have had an impact or not on the consolidation of party politics in post communist Europe since 1989 This text will be of key interest to scholars and students of Political Parties and Behaviour East European and Post Communist Politics and Comparative Politics

Handbook of Party Politics Richard S Katz,William J Crotty,2006-01-26 The Handbook of Party Politics is the first book to comprehensively map the state of the art in contemporary party politics scholarship This major new work brings together the world s leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today *Party Organization and Electoral Volatility in Central and Eastern Europe* Sergiu Gherghina,2014-10-17 Political parties in post communist countries have very high levels of electoral volatility In these environments political factions fail to establish long term connections with the electorate and thus regularly rise and fall from the political arena This book provides an organizational explanation for the variations in party level electoral volatility It looks comparatively at 29 political parties in six Central and Eastern European democracies

between 1990 and 2008 to examine how political parties can influence their electoral environment Using empirical evidence Gherghina tests the effect of candidate selection procedures membership organizations and re nomination of incumbent MPs on voters loyalty and in doing so demonstrates how party organization greatly affects electoral stability Including case studies from Bulgaria Czech Republic Hungary Poland Romania and Slovakia this book will be of interest to students and scholars of comparative politics party politics democratization elections and Central and Eastern European politics

Politics in Europe M. Donald Hancock, Christopher J. Carman, Marjorie Castle, David P. Conradt, Raffaella Y. Nanetti, Robert Leonardi, William Safran, Stephen White, Michelle Hale Williams, Mary N. Hampton, 2018-05-09 *Politics in Europe* Seventh Edition introduces students to the power of the European Union as well as seven political systems the UK France Germany Italy Sweden Russia Poland within a common analytical framework that enables students to conduct both single case and cross national analysis Each case addresses the most relevant questions of comparative political analysis who governs on behalf of what values with the collaboration of what groups in the face of what kind of opposition and with what socioeconomic and political consequences Packed with captivating photos and robust country descriptions from regional specialists the Seventh Edition enables students to think critically about these questions and make meaningful cross national comparisons

Party Politics in Central and Eastern Europe Tim Haughton, 2013-09-13 What impact has EU membership had on party politics in Central and Eastern Europe Although there is an emerging body of literature on the Europeanization of political parties most of these accounts focus exclusively on Western Europe Drawing on a range of qualitative and quantitative approaches including detailed studies of party programmes and manifestos analysis of the media semi structured interviews and expert surveys this collection provides not just conceptually informed but also empirically rooted analyses of party politics in Central and Eastern Europe during the first four years of EU membership In particular the contributions assess the impact of EU membership on parties internal balance of power the use of European issues in inter party competition the role of transnational party federations and the broader role the EU plays in party politics The findings not only shed light on the impact of EU membership on party organization and programmes they also inform broader debates concerning the dynamics fluidity and motors of party politics in Central and Eastern Europe This book was based on a special issue of *Journal of Communist Studies and Transition Politics*

Clientelism and Democratic Representation in Comparative Perspective Saskia Ruth-Lovell, Maria Spirova, 2019-10-15 Since the Third Wave of democratization research on clientelism has experienced a revival The puzzling persistence of clientelism in new and old democracies inspired researchers to investigate the micro foundations and causes of this phenomenon Though the decline of clientelistic practices such as vote buying and patronage in democratic contexts has often been predicted they have proven to be highly adaptive strategies of electoral mobilization and party building This volume seeks to contribute to this new line of research and develops a theoretical framework to study the consequences of clientelism for democratic governance Under governance we understand

all processes of governing whether undertaken by a government market or network whether over a family tribe formal or informal organization or territory and whether through laws norms power or language

Democratic Elections in Poland, 1991-2007 Frances Millard, 2009-10-16 This book is a political history of democratic elections in Poland from the first fully competitive parliamentary elections in 1991 to the unexpected most recent election in 2007 Until now there has been no equivalent study covering similar developments in this or any other post communist country this book fills the gap and provides a detailed electoral perspective on the trajectory of political development in the context of post authoritarian change It also provides an invaluable account of the evolution of electoral processes and institution building in the context of democratic regime development The major themes of the book centre on the complex problematic development of Poland s political parties and the parties failure to gain public support and win the confidence of the electorate Frances Millard examines the failure of Polish elites the lack of a stable party system and how elections have had a destabilizing effect and she argues that the interaction of leadership volatility party volatility and electoral volatility have created uncertainty and undermined political parties as effective vehicles of representation Poland is a large and important country worthy of study in its own right but equally many of the problems experienced are not unique to Poland so this book also constitutes a comparative benchmark for analysis of democratic developments elsewhere

The Handbook of Political Change in Eastern Europe Sten Berglund, 2013-04-01 Lots has changed in Eastern Europe in the past quarter century and the new edition of this major study of the region sets out these changes in directions for the better and for the worse Richard Rose University of Strathclyde UK This Handbook offers a historically informed systematic account of the political development in Central and Eastern Europe Two chapters lay out a framework for comparison 26 specialists provide analyses for 19 countries In an appendix each of these country chapters documents election results government composition the electoral system and the constitutional framework The concluding chapter synthesizes the major results The Handbook is the most comprehensive source for an up to date analysis of all Central and Eastern European countries within the sphere of influence of the European Union It is a must have for students and scholars interested in how to evaluate the state of democracy in this region of the globe Hans Dieter Klingemann New York University Abu Dhabi UAE and Social Science Research Center Berlin Germany This third edition of The Handbook of Political Change in Eastern Europe provides an authoritative and thorough analysis of the political changes which have occurred in Central and Eastern Europe since the demise of communism It offers an historical comparative perspective of the region and focuses on the social consequences of the democratisation process The country specific chapters are written by scholars with well documented area expertise on their respective cases Estonia Latvia Lithuania Poland The Czech Republic Slovakia Hungary Slovenia Romania Bulgaria Croatia Bosnia Serbia Montenegro Macedonia Albania Ukraine Moldova and Georgia Each chapter includes detailed examinations of elections the formation of governments electoral systems and constitutional arrangements These in depth and up to date analyses are supplemented by

conclusions on the party systems and emerging political structures in the region as a whole as well as the consolidation of democracy in a post communist setting The revised and expanded version of The Handbook of Political Change in Eastern Europe provides a state of the art companion which will be indispensable for students and scholars in the social sciences including political science comparative politics European studies and political history as well as for policy makers and practitioners

The Selection of Political Party Leaders in Contemporary Parliamentary Democracies Jean-Benoit Pilet, William Cross, 2014-01-10 This book explores the ways in which political parties in contemporary parliamentary democracies choose their leaders and then subsequently hold them accountable The authors provide a comprehensive examination of party leadership selection and accountability both through examination of parties and countries in different institutional settings and through a holistic analysis of the role of party leaders and the methods through which they assume and exit the office The collection includes essays on Australia Austria Belgium Canada Germany Hungary Israel Italy Portugal Romania Spain Norway and the United Kingdom which have important differences in their party systems their degree of democratization the role assigned to party leaders and their methods of leadership selection Each country examination provides significant data relating to party rules and norms of leadership selection leadership tenures and leadership contests The book concludes with a chapter that merges the country data analyses to provide a truly comparative examination of the theoretical questions underlying the volume This book will be of strong interest to students and scholars of legislative studies elections democracy political parties party systems political elites and comparative politics

The New Party Challenge Timothy Haughton, Kevin Deegan-Krause, 2020 This book provides the first systematic book length study of political parties across Central Europe since 1989 and provides new tools and conceptual frameworks that can be used to explain party politics in other regions across the globe

eBook: Representative Government in Modern Europe, 5e GALLAGHER, 2021-04-09 eBook Representative Government in Modern Europe 5e

Women's Rights in Democratizing States Denise M. Walsh, 2010-11-15 This study offers an explanation for why advances in women s rights rarely occur in democratizing states Drawing on deliberative theory Denise Walsh argues that the leading institutions in the public sphere are highly gendered meaning women s ability to shape the content of public debate and put pressure on the state to advance their rights is limited She tests this claim by measuring the openness and inclusiveness of debate conditions in the public sphere during select time periods in Poland Chile and South Africa Through a series of structured focused comparisons the book confirms the importance of just debate for securing gender justice The comparisons also reveal that counter publics in the leading institutions in the public sphere are crucial for expanding debate conditions The book concludes with an analysis of counter publics and suggests an active role for the state in the public sphere

Poles Together? Aleks Szczerbiak, 2001 The book contains country reports from Bulgaria the Czech Republic Germany Hungary and Spain prepared on the basis of a questionnaire inquiring on the legal frameworks of rights and freedoms of information with special regard to personal and

ethnic data Studies on Latvia and Romania cover some of these issues The road leading to an efficient legally and socially acceptable ethnic monitoring system is examined on the example of Britain The book presents the norms and practices connected to the collection of ethnic data and their relation to data protection concerns This volume is a strong and well founded statement about the compatibility of the collection of ethnic data for purposes of minority protection on the one hand and the principles of data protection and informational self determination on the other *Presidents with Prime Ministers* Margit Tavits, 2009 This book is about presidents in parliamentary systems One commonly recurring political debate within parliamentary systems is over whether or not the public should directly elect the head of state Despite the importance of this topic in practical politics political scientists have offered little empirical evidence yet made bold assumptions about the consequences of popular elections for heads of state A common argument is that direct elections enhance presidents legitimacy thereby increasing their activism and encouraging authoritarian tendencies Another popular assumption is that direct presidential elections are more heavily contested and partisan polarizing and dividing political elites and the electorate Proponents of direct elections argue that such elections will help decrease voter alienation and apathy This book challenges the conventional wisdom Using both quantitative and qualitative empirical evidence from democratic systems across the world this book demonstrates that compared to indirect selection methods direct elections do not yield more active and contentious presidents do not polarize political elites or society and do not remedy political apathy Rather presidential activism in both semi presidential and pure parliamentary systems is shaped by political opportunity framework the institutional strength and partisan composition of both parliament and government Further because holding the presidency provides parties with an electoral asset direct and indirect presidential elections can be equally contentious and polarizing Last but not least rather than decreasing apathy direct election is associated with increased voter fatigue and decreased turnout in parliamentary elections by about seven percentage points

Embracing the Track of Appearance: An Psychological Symphony within **Poles Together Emergence And Development Of Political Parties In Postcommunist Poland**

In a global consumed by displays and the ceaseless chatter of quick conversation, the melodic splendor and mental symphony developed by the published word usually disappear into the backdrop, eclipsed by the persistent sound and disturbances that permeate our lives. Nevertheless, situated within the pages of **Poles Together Emergence And Development Of Political Parties In Postcommunist Poland** an enchanting fictional value filled with fresh emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that charming masterpiece conducts readers on an emotional trip, skillfully unraveling the concealed songs and profound influence resonating within each cautiously crafted phrase. Within the depths of the moving evaluation, we shall investigate the book is main harmonies, analyze their enthralling publishing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
