**Armed Forces in Law Enforcement Operations? - The German and European Perspective** Kim Eduard Lioe, 2010-11-25 At the center of this study lies the allocation of responsibilities and the division of labor between the armed forces and the mission of the police as well as other security forces in Europe The mission of these forces defines the demarcation line between the spheres of internal and external security by assigning the former to the police and the latter to the armed forces The focal idea is the evaluation of the feasibility of a strict separation as maintained in Germany in a European context practical difficulties in its application and potential ways to overcome such difficulties This comprises in particular a comparison of the German Way with other European states and the corresponding methods chosen against the

background of joint operations abroad      *The Policing of Politics in the Twentieth Century* Mark Mazower, 1997 The role of the police has from its beginnings been ambiguous even Janus faced This volume focuses on one of its controversial aspects by showing how the police have been utilized in the past by regimes in Europe the USA and the British Empire to check political dissent and social unrest Ideologies such as anti Communism emerge as significant influences in both democracies and dictatorships And by shedding new light on policing continuities in twentieth century Germany and Italy as well as Interpol this volume questions the compatibility of democratic government and political policing      **Elgar Encyclopedia of European Union Public Policy** Paolo R. Saskia Bayerl, Ruža Karlović, Babak Akhgar, Garik Markarian, 2017-05-24 This book provides a view into the multi dimensional and multi contextual nature of community policing It brings together important conceptual discussions as well as numerous case studies and real life examples of European community policing practices It further offers insights into how the primarily locally focused concept of community policing fits into an increasingly interconnected world Our book is intended for professionals working in community policing academics and policymakers developing community policing procedures In addition the book aims to provide information for readers who are new to the subject of community policing The wide range of examples and case studies make it also an excellent resource for teaching materials      Towards a European Public Law Bernard Stirn, 2017-04-28 A European public law is under construction but how has this occurred and what is its character Stirn proposes that this European public law is being constructed by the convergence of three circles the law of the European Union the law of the European Convention on Human Rights and the different domestic legal orders The mutually influential relationship of these constituents has allowed them to develop most considerably in the jurisprudence of the Court of Justice of the European Union and the European Court of Human Rights The book begins by reflecting on the different phases of the development of the European project from the end of the First World War It outlines the transition from the European Coal and Steel Community to the European Union as well as the other institutions contributing to these developments The discussion then moves to the European legal order which consists of the law of the European Union and the European Convention on Human Rights Stirn explores how in spite of occasional false starts and frictions their relationship is becoming ever closer and how their characteristics in law are becoming increasingly similar Furthermore Stirn analyses the relationship between European law and national legal systems The differing approach to domestic incorporation of international law whether it be monist or dualist is considered as well as the recognition that European law is superior to domestic law The character specifically of EU law and how it compares to international and domestic law is also discussed in

particular its unique features but also the principles it shares with domestic law In addition the book examines the existence or not in member states of constitutional courts the level or jurisdictional orders and the recruitment and status of judges Similar trends across Europe in public administration are also accounted for and subjected to analysis Stirn concludes that a European model of public administration is becoming apparent **Municipal Policing in the European Union** D.

Donnelly,2013-01-21 The book applies a model of municipal policing to compare a number of police systems in the European Union suggesting that in the future local communities will have some form of police enforcement mechanism that will not always include the sworn police officer *Policing European Metropolises* Elke Devroe,Adam Edwards,Paul

Ponsaers,2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent *Policing European Metropolises* develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy
