**Fight the Power** Clarence Taylor, 2018-12-20 A story of resistance power and politics as revealed through New York City s complex history of police brutality The 2014 killing of Michael Brown in Ferguson Missouri was the catalyst for a national conversation about race policing and injustice The subsequent killings of other black often unarmed citizens led to a surge of media coverage which in turn led to protests and clashes between the police and local residents that were reminiscent of the unrest of the 1960s Fight the Power examines the explosive history of police brutality in New York City and the black community s long struggle to resist it Taylor

brings this story to life by exploring the institutions and the people that waged campaigns to end the mistreatment of people of color at the hands of the police including the black church the black press black communists and civil rights activists Ranging from the 1940s to the mayoralty of Bill de Blasio Taylor describes the significant strides made in curbing police power in New York City describing the grassroots street campaigns as well as the accomplishments achieved in the political arena and in the city's courtrooms Taylor challenges the belief that police reform is born out of improved relations between communities and the authorities arguing that the only real solution is radically reducing the police domination of New York's black citizens

**The System in Black and White** Michael W. Markowitz, Delores D. Jones-Brown, 2000-04-30 In a collection of compelling contributions to the study of the nexus between race crime and justice noted scholars in the field critique many long held assumptions and myths about race challenging criminal justice policymakers to develop new and effective strategies for dealing with the social problems such misunderstandings create In sections devoted to criminological theory law enforcement courts and the law juvenile delinquency and gender contributors endeavor to dispel myths about African American involvement in the criminal justice system In so doing a number of important facts are established about the race crime nexus For example in an analysis of criminological theory it is concluded that race as a singular social factor has not been adequately represented in existing paradigms The subject of police profiling of African Americans reveals an evolution of court decisions that have marginalized rather than liberated African Americans since slavery Each contributor challenges both the reader and the criminal justice system to develop meaningful strategies for addressing the racism that still pervades our system of justice A chapter on women of color in prison makes a compelling argument that such institutions often represent safer environments than the life on the streets women leave behind This persuasive volume will be of interest to undergraduate and graduate students as well as faculty in Sociology Criminal Justice policy development African American and Women's Studies
