The Killing

John Alberti, 2017-05-18 Examines a landmark television series in its feminist rewriting of the noir police procedural Although it lasted only four seasons and just forty four episodes The Killing attracted considerable critical notice and sparked an equally lively debate about its distinctive style and innovative approach to the television staple of the police procedural A product of the turn toward revisionist quality television in the post broadcast era The Killing also stands as a pioneering example of the changing gender dynamics of early twenty first century television Author John Alberti looks at how the show's focus shifts the police procedural away from the idea that solving the mystery of whodunit means resolving the crime and toward dealing with the ongoing psychological aftermath of crime and violence on social and family relationships This attention to what creator and producer Veena Sud describes as the real cost of murder defines The Killing as a milestone feminist revision of the crime thriller and helps explain why it has provoked such strong critical reactions and fan loyalty Alberti examines the history of women detectives in the television police procedural paying particular attention to how the cultural formation of the traditionally male noir detective has shaped that history Through a careful comparison with the

Danish original *Forbrydelsen* and a season by season overview of the series Alberti argues that *The Killing* rewrites the masculine lone wolf detective a self styled social outsider who sees the entanglements of relationships as threats to his personal autonomy of the classic noir Instead lead detective Sarah Linden while wary of the complications of personal and social attachments still recognizes their psychological and ethical inescapability and necessity In the final chapter the author looks at how the show s move to ever expanding niche markets and multi viewing options along with an increase in feminist reconstructions of various television genres makes *The Killing* a perfect example of cult television that lends itself to binge watching in the digital era Television studies scholars and fans of police procedurals should own this insightful volume

Arkerson, 2017-12-08

In today's society the public perception of crime has been skewed by how the media depicts it People use the media for enjoyment companionship surveillance and interpretation The problem is that it becomes hard to separate fact from entertainment This raises several questions How are we consuming media Are we consuming reality within the news And are we consuming harmless pleasure from entertainment media In *Crime Media and Reality Examining Mixed Messages about Crime and Justice in Popular Media* Venessa Garcia and Samantha Garcia Arkerson focus predominantly on the social constructions of crime and justice and how we absorb them They look at the influence of crime news and true crime television series that prevent the public from understanding pure entertainment from the realities of crime and justice They bring to light the social science knowledge missed by media infotainment which has blurred the line between information and entertainment Throughout all different forms of media are discussed news media crime dramas and true crime television series In doing so they keep all of its fascinating coverage while uncovering the reality of crime and justice This book adds significant information to the constructs held by the general public by placing media depictions into historical legal and social context *Noir in the North* Stacy Gillis, Gunnthorunn Gudmundsdottir, 2020-10-01 What is often termed Nordic Noir has dominated detective fiction film and television internationally for over two decades But what are the parameters of this genre both historically and geographically What is noirish and what is northern about Nordic noir The foreword and coda in this volume by two internationally bestselling writers of crime fiction in the north Yrsa Sigurdottir and Gunnar Staalesen speak to the social contract undertaken by writers of noir while the interview with the renowned crime writer Val McDermid adds nuance to our understanding of what it is to write noir in the North Divided into four sections Gender and Sexuality Space and Place Politics and Crime and Genre and Genealogy *Noir in the North* challenges the traditional critical histories of noir by investigating how it functions transnationally beyond the geographical borders of Scandinavia The essays in this book deepen our critical understanding of noir more generally by demonstrating for example Nordic noir's connection to fin de siècle literatures and to mid century interior design and by investigating the function of the state in crime fiction
