Policing a Perplexed Society Sir Robert Mark, 2023-03-31 Should policemen be armed Do they want to be How fair is police interrogation Are the police too tough on demonstrators How often are the guilty acquitted Do we get the police force we deserve Originally published in 1977 Sir Robert Mark considers these and many other issues His period as Commissioner of the Metropolitan Police Force would mark something of an epoch not only because of the challenge of brutal terrorism or his success as a leader but because he was a bold innovator thoughtful and articulate whose work could be readily assessed because he believed in telling the public all you can the official memorandum on this appears here as an appendix One change affecting the CID described in this book is characterised by Sir Robert himself as the most important single change since the Metropolitan Police was founded by his namesake Sir Robert Peel The opening chapter describes the organisation and functioning of this country's police at the time the way in which they epitomise and are restricted by a free society and alone see the whole picture of criminal justice in a sense here Sir Robert speaks over the heads of the legal profession to the public The next important chapter contains the first open discussion of modern police army cooperation in this country but Sir Robert emphasises that a democratic society cannot be controlled by force and that the police exist for the maintenance of public order irrespective of party of sectional interests and of the government of the day They are an example of the British genius for successful institutional compromise Subsequent chapters examine these themes in more detail and from different angles discuss manpower limitations and maldistribution emphasise how the individual police officer man or woman is the anvil on which society beats out the problems of social inequality racial prejudice and ghettos weak and ineffectual legislation There are chapters on violence and on that London speciality the demonstration In the author's view the police officer daily thrown back on his understanding of basic Christian precepts has now left his Victorian artisan status far behind and the present Metropolitan Commissioner compels consideration of the police officer's point of view *Policing a Perplexed Society* Sir Robert Mark, 1977-01-01 ***Policing a Perplexed Society*** Richard Edward Bilsborrow, 1977 ***The Police in Society*** Ben Whitaker, 2023-03-31 In 1964 Ben Whitaker who later defeated a former Home Secretary to become Hampstead's first ever Labour MP and a Junior Minister wrote *The Police to try and reconcile* in his own words the very different impression police officers make when as a barrister one is defending from when one is prosecuting in court This book was widely praised as The best and most impartial book that has yet been written on the police Lord Gardiner The most truthful picture to date Sunday Times Valuable Observer Terse and telling Sunday Telegraph Excellent generous and sensible Punch After that time the crime situation seriously deteriorated as uncertainties about the exact nature of the police's role in a democracy multiplied Ben Whitaker spent five years interviewing policemen and others and in this title originally published in 1979 almost entirely rewrote his assessment and proposals for ameliorating the situation Perceptively critically yet impartially he analyses the effectiveness sociology misconduct and future of the police and suggests radical reforms in their

powers and relationship with the public The Police in Society was timely and essential reading for anybody concerned with the human rights of individuals in a democratic society at the time and today can be read and enjoyed in its historical context

Policing, Race and Racism Mike Rowe, 2012-12-06 Over recent years race has become one of the most important issues faced by the police This book seeks to analyse the context and background to these changes to assess the impact of the Lawrence Inquiry and the MacPherson Report and to trace the growing emphasis on policing as an antiracist activity proactively confronting racism in both crime and non crime situations Whilst this change has not been wholly or consistently applied it does represent an important change in the discourse that surrounds police relations with the public since it changes the traditional role of the police as neutral arbiters of the law This book shows why race has become the most significant issue facing the British police and argues that the police response to race has led to a consideration of fundamental issues about the relation of the police to society as a whole and not just minority groups who might be most directly affected
