 for Contemporary Cultural Studies,2004-08-02 First Published in 1982 The Empire Strikes Back examines the place of race
 and racism in the political transformation of Britain at the end of the seventies and argues that Britain has entered a
 longterm political and economic crisis which has brought new urgency to the politics of race and nation The authors explore
 the elements of a new culturally focused racism which in representations of black families stresses their alienness and the
 supposed criminal inclinations of the black population They argue that the British state is very far from its popular image as a
 liberal democracy and that all our notions of culture nation and class are based on deeply racist structures Key areas of state
 intervention such as schooling policing and policy oriented race relations research are analysed to demonstrate that a
 definition of the growing crisis in the economy and social services is emerging which shifts the focus of blame on to black
 people The authors argue that existing race relations theory has significantly failed to deal adequately with the British
 situation In particular the experience of black women and the political organization of young black people raises major
 problems for race blind feminism and Eurocentric Marxism alike In conclusion the book assesses the political relation of race
 to class and suggests that any long term struggle against racism must begin by recognizing the autonomy of black struggles
 at all levels of British society *Procedural Justice and Relational Theory* Denise Meyerson,Catriona Mackenzie,Therese
 MacDermott,2020-10-29 This book bridges a scholarly divide between empirical and normative theorizing about procedural
 justice in the context of relations of power between citizens and the state Empirical research establishes that people s
 understanding of procedural justice is shaped by relational factors A central premise of this volume is that this research is
 significant but needs to be complemented by normative theorizing that draws on relational theories of ethics and justice to
 explain the moral significance of procedures and make normative sense of people s concerns about relational factors The
 chapters in Part 1 provide comprehensive reviews of empirical studies of procedural justice in policing courts and prisons
 Part 2 explores empirical and normative perspectives on procedural justice and legitimacy Part 3 examines philosophical
 approaches to procedural justice Part 4 considers the implications of a relational perspective for the design of procedures in
 a range of legal contexts This collection will be of interest to a wide academic readership in philosophy law psychology and
