Risk and compliance benefits are the most significant benefits experienced by organizations implementing a DPMP.

Quantified Privacy Benefits

Privacy as a Positive Enabler

Faster Pace of Innovation

"If a company has a robust DPMP, it can move faster than companies that lack such a program. A DPMP provides the organization with a roadmap and drives greater consistency, standardized processes, tools, and rules to enable agility in data use and technology."

Competitive Advantage

"A DPMP gives organizations an edge in attaining new business, especially organizations that are acting as business service providers and processors in B2B transactions. It enables organizations to quickly respond to queries from prospective customers regarding how it addresses privacy and security concerns."

Increased Strategic Bandwidth

"A DPMP enables organizations to spend less time thinking about basic compliance issues and more time thinking about how they can use the data they hold to solve real problems in a responsible way, or arrive at fair market pricing, and to deliver excellence and high standards of service to customers."

Modified Risk Perception/Tolerance

"Investing in a DPMP can change the risk perception of an organization. The more key management and board members are familiar with the DPMP, the more confident and competent they become with the use of data in a responsible and sustainable way."
