It is a tool to develop a deep insight and formulate an appropriate roadmap to align with the post-pandemic business trends in the Asian market. The book is also a reflection of how innovation and resilience are actively driving the current Asian businesses. The major trends that have been identified in Asian markets have been in the fields of technology application, innovations, change in the patterns of demands towards sustainable choices, value chain re-engineering, and a growing consciousness about ethical choices. The volume empowers readers to take actionable steps towards creating sustainable business solutions while also providing the opportunity to explore evolving perspectives on the Asian market during the current period of disruption and how it has impacted businesses. This book will enhance the competency of young start-up ventures, budding entrepreneurs from Asian and non-Asian markets, SMEs, and mid-level practitioners to manage and drive their organizations towards future sustainability in ensuring the value-driven eco-system. This book will also be a guiding principle for the academics to undertake research on the Asian market towards development of new solutions and actional strategies in addition to existing solutions.

**Vietnamese Health Care System in Change** Kerstin Priwitzer, 2003-08-01 Within the last twenty years, a large-scale bottom-up privatization has taken place in Vietnam, changing and dismantling the public health care system. This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support, especially for the poor, elderly, migrants, and ethnic minorities on the one hand, and its efficiency on the other hand. The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government. The author bases her findings on little-known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system, thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam.
