Foreign Language, Area, and Other International Studies John P. Brosseau, 1980 **Reflexive constructions in the world's languages** Katarzyna Janic, Nicoletta Puddu, Martin Haspelmath, 2023-07-11 This landmark publication brings together 28 papers on reflexive constructions in languages from all continents representing very diverse language types While reflexive constructions have been discussed in the past from a variety of angles this is the first edited volume of its

kind All the chapters are based on original data and they are broadly comparable through a common terminological framework The volume opens with two introductory chapters by the editors that set the stage and lay out the main comparative concepts and it concludes with a chapter presenting generalizations on the basis of the studies of individual languages

Definiteness in a Language without Articles – A Study on Polish Adrian Czardybon, 2017-06-13 The aim of this book is to investigate how definiteness is expressed in Polish a language which is claimed to have no definite and in definite articles The central question is how the difference in definiteness is indicated between a woman and the woman in Polish In English the definite article the and the indefinite article a express the category of definiteness explicitly Since definiteness is also relevant in articleless languages there are other means to indicate that a nominal phrase is definite or indefinite This study is delimited to four means for expressing definiteness in Polish which are demonstratives aspect case alternation and information structure Each strategy is investigated independently from the others although they interact in a complex way which is shown at the end of this book resulting in a decision tree Polish is not investigated in isolation however the study is complemented by comparisons with other Slavic languages and also with a Polish dialect called Upper Silesian which differs from Polish The analysis in this book is based on L bner s theory of Concept Types and Determination CTD L bner s distinction of the four concept types sortal relational functional individual is crucial since definiteness phenomena under discussion can be explained Therefore the interaction of the four concept types with the four definiteness strategies plays a central role in this book

The Polish Review ,1979

Morphology Jeffrey P. Punske, 2023-10-09 The first comprehensive morphology textbook written in the framework of Distributed Morphology firmly grounded in cross linguistic theory Distributed Morphology is the theoretical framework that views morphology as syntactic proposing that there is no divide between the construction of words and the construction of sentences The first text of its kind Morphology A Distributed Morphology Introduction provides a thorough overview of Distributed Morphology using data and problem sets from a diverse selection of the world s languages Divided into two parts this valuable resource begins by describing the basics of morphology and then moves into an exploration of more advanced topics in morphology including morphosyntactic operations cyclic derivation the Mirror Principle and non compositional language Each chapter includes a glossary of key terms learning objectives further readings and illustrative examples to reinforce learning Exercises and problem sets encourage students to develop their understanding and build confidence in the application of theory to practice Through this valuable text students will develop comprehension in morphological parsing and glossing the concept of the lexicon the different types of morphemes the idea of paradigms the basic practice of morphological analysis and more Offering detailed yet accessible coverage of morphological theory from the perspective of Distributed Morphology this textbook Introduces the methodology used in morphology the basic assumptions of Distributed Morphology and key concepts from lexical grammatical approaches to language Covers essential phonology feature interaction paradigms as linguistic objects core

ideas of syntax and syntactic derivation and derivation and inflection in Distributed Morphology Includes a Quick Reference Guide with glossing abbreviations from the Leipzig Glossing Rules a full IPA chart with instructions and charts of phonological features Provides access to a companion website containing solutions to problem sets and additional instructor resources Morphology A Distributed Morphology Introduction is the ideal textbook for advanced undergraduates and graduate students in morphology courses or with an interest in specializing in morphology Offering students an unparalleled overview of this growing field of morphology this text will ensure that developing morphologists are well equipped to employ the latest methods in Distributed Morphology to their own research and study **Perspectives on Language Research**

Marinela Burada,Oana Tatu,Raluca Sinu,2024-09-11 Dedicated to language related research the present volume brings together contributions that reflect the interests experiences and challenges of theorists practitioners and language instructors today Drawing on case studies and authentic data the articles showcase issues concerning on the one hand the analysis of language structure at various levels phonology morphology syntax and on the other the construction of text and identity in areas such as teaching academic writing or translation The diversity of topics and approaches makes Perspectives on Language Research a valuable resource for students and specialists in language and communication **Responding to Polar Questions across Languages and Contexts** Galina B. Bolden,John Heritage,Marja-Leena Sorjonen,2023-12-15 This book is about one of the most fundamental action sequences found across human societies and socio cultural contexts polar questions and their responses Question answer sequences are among the most basic building blocks for sequences of action in interaction and are ubiquitous among the languages of the world Among different types of questions polar questions are the most common occurring with greater frequency in all studied languages This volume presents a collection of conversation analytic studies into responses to polar questions across ten different typologically diverse languages in a range of action environments and social contexts The studies explore different ways in which speakers can respond to polar questions and the relationships between response design the action implemented by the response and the context in which it occurs Taken together the studies assembled in the volume present a nuanced view of polar responses as a situated social action
