*The Political Discourse of Anarchy* Brian C. Schmidt, 1998-01-01 A disciplinary history of the field of international relations from its emergence in the mid 1800s until the outbreak of World War II Historiographical Investigations in International Relations Brian C. Schmidt, Nicolas Guilhot, 2018-06-19 This book critically investigates the historiography of International Relations For the past fifteen years the field has witnessed the development of a strong interest in the history of the discipline The chapters in this edited volume written by some of the field's preeminent disciplinary historians all manifest the best of an innovative and exciting generation of scholarship on the history of the discipline of International Relations One of the objectives of this volume is to take stock of the historical turn Yet this volume is not simply a stock taking exercise as it also intends to identify the limitations and blind spots of the recent historiographical literature The chapters consider a range of diverse thinkers and examine their impact on understanding various dimensions of the field's history **Imperialism**

**and Internationalism in the Discipline of International Relations** David Long, Brian C. Schmidt, 2006-01-01 What were the guiding themes of the discipline of International Relations before World War II The traditional disciplinary history has long viewed this time period as one guided by idealism and then challenged by realism This book reconstructs in detail some of the formative episodes of the field's early development and arrives at the conclusion that in actuality the early years of International Relations were preoccupied not with idealism and realism but with the dual themes of imperialism and internationalism Thus the beginnings of the discipline have resonance with the recently revived discourse of empire and the global status and policies of the United States as the world's sole superpower **Diplomatic Investigations** Herbert Butterfield, Martin Wight, 2019 This is a reissue of a classic work in the field of International Relations with a new

Dilemmas of Decline Ian Hall, 2012-08 In just three decades Great Britain's place in world politics was transformed In

1945 it was the world's preeminent imperial power with global interests. By 1975 Britain languished in political stasis and economic recession, clinging to its alliance with the United States and membership in the European Community. Amid this turmoil, British intellectuals struggled to make sense of their country's decline and the transformed world in which they found themselves. This book assesses their responses to this predicament and explores the different ways British thinkers came to understand the new international relations of the postwar period. *The Australian School of International Relations* J. Cotton, 2013-07-10. This book offers the first comprehensive account of the emergence of the IR discipline in Australia. Initially influenced by British ideas, the first generation of Australian international relations practitioners demonstrated in their work a strong awareness of the unique local conditions to which their theorizing should respond. *The Atlantic Realists* Matthew Specter, 2022-02-08. In *The Atlantic Realists*, intellectual historian Matthew Specter offers a boldly revisionist interpretation of realism, a prevalent stance in post-WWII US foreign policy and public discourse, and the dominant international relations theory during the Cold War. Challenging the common view of realism as a set of universally binding truths about international affairs, Specter argues that its major features emerged from a century-long dialogue between American and German intellectuals beginning in the late nineteenth century. Specter uncovers an Atlantic realist tradition of reflection on the prerogatives of empire and the nature of power politics conditioned by fin de siècle imperial competition, two world wars, the Holocaust, and the Cold War. Focusing on key figures in the evolution of realist thought, including Carl Schmitt, Hans Morgenthau, and Wilhelm Grewe, this book traces the development of the realist worldview over a century, dismantling myths about the national interest, Realpolitik, and the art of statesmanship. **Regionalisation and Global Governance** Andrew F. Cooper, Christopher W. Hughes, Philippe De Lombaerde, 2007-12-21. This book explores the relationship between regionalization and global governance, surveying the theoretical debates, economic dimensions, security considerations, and governing structures. **The Eurocentric Conception of World Politics** John M. Hobson, 2012-03-29. Reveals international theory as embedded within Eurocentrism such that its purpose is to celebrate and defend the idea of Western civilization. **Encyclopedia of Philosophy and the Social Sciences** Byron Kaldis, 2013-03-07. The entries are consistently good; the coverage is amazing, and he has managed to involve the whole scholarly community in this field. It shows off the field very well and will be a magnificent resource for students and others. Stephen Turner, USF, USA. **Morgenthau, Law and Realism** Oliver Jüterssonke, 2010-08-19 Although he is widely regarded as the founding father of realism in International Relations this book argues that Hans J Morgenthau's legal background has largely been neglected in discussions of his place in the canon of IR theory Morgenthau was a legal scholar of German Jewish origins who arrived in the United States in 1938 He went on to become a distinguished professor of Political Science and a prominent commentator on international affairs Rather than locate Morgenthau's intellectual heritage in the German tradition of Realpolitik this book demonstrates how many of his central ideas and concepts stem from European and American legal debates of the 1920s and 1930s This is an ambitious attempt to recast the debate on Morgenthau and will appeal to IR scholars interested in the history of realism as well as international lawyers engaged in debates regarding the relationship between law and politics and the history of International Law

*Educating for Durable Solutions* Christine Monaghan, 2021-04-08 What is education for an unknowable future In *Educating for Durable Solutions* Christine Monaghan explores how refugees and policymakers have answered this question over time by reconstructing the contemporary history of education in Kenya's Dadaab and Kakuma refugee camps Through oral histories and archival research Monaghan shows how since the founding of both camps in 1991 refugees and policymakers have conceptualized developed implemented and changed refugee education programs She also shows why and how despite these changes real challenges persist in refugee education in Dadaab Kakuma and other camps throughout the world these include high numbers of out of school children and youth high student to teacher ratios unpredictable funding and persistent questions regarding what refugee education is for The author shifts focus from debates over the impacts of specific policies and programs and explores instead how and why different policies and programs were implemented whether they led to meaningful changes in the long standing challenges of refugee education She finds that when and where real changes occurred individuals or small groups of refugees and policymakers acted with tremendous agency and as tireless advocates
