*The Foreign Policies Of Arab States* Bahgat Korany,Ali El-Din Hillal Dessouki,2019-07-09 Middle East politics have been proverbial for their changeability The 1970s ushered in petro politics for instance but OPEC s international status declined markedly in the following decade Similarly the Arab world s ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s the late 1980s also brought PLO acceptance of the State of Israel Interstate relations were not the only arena to experience significant alterations state society relations also underwent dramatic changes such as the acceleration of privatization in erstwhile socialist regimes Then the 1990s opened with a political earthquake the Gulf Crisis The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984 including an early analysis of the effects of Iraq s invasion of Kuwait and the subsequent coalition victory over Iraq In addition the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan the region s link to sub Saharan Africa Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power Moreover in many of its chapters the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change

**Educators of the Mediterranean... ..Up Close and Personal** Ronald G Sultana,2012-01-01 A score of prominent educators from South Europe and the Middle East and North Africa region speak about their upbringing their educational and professional journeys their academic achievements and their struggles in order to enhance democracy justice and equity in their countries and across the Mediterranean The interviews in this volume shed light on educational movements challenges and aspirations in a region that is attaining increasing importance geo politically and in comparative and international studies These are powerful and critical voices providing readers with fresh often unexpected insights about

contexts cultures and convictions that deserve global attention The interviews with these men and women inform intrigue but above all inspire calling as they do for an earnest commitment to a vision of education as a transformative democratising force In contrast to the global totalising discourse that has increasingly defined education in narrowly economic terms here are the beginnings of alternative agendas inviting citizens to read and decode the world around them and to confront power wherever it lies In doing so the educators in this volume draw upon and put at our disposal a wide array of theoretical lenses nimbly weaving these within a narrative that speaks about a lifetime lived in the hope of making a difference These then are vivid engaging and reflexive accounts emerging from contexts where democracy has only recently taken root if at all and from a region that has come to symbolize the return of the political and the reclaiming of the public sphere as a site for transformation contestation revolt and hope

*The Libyan Oil Industry* Frank C. Waddams, 2023-10-12 The Libyan Oil Industry 1980 gives a narrative and analysis of the economic consequences of the discovery and production of oil in Libya from the searches for oil by the major oil companies to the establishment of Libya as one of the main exporters in the world It examines the reasons behind this rapid rise and concentrates on the roles of the Libyan Government and the oil

companies and the relations between them the impact of Libyan oil and events in Libya on the petroleum markets of Europe and the world and the response of the Libyan economy to the development of its oil industry     **A Select Bibliography On Economic Development** John P. *Multiculturalism and Democracy in North Africa* Moha Ennaji,2014-04-16 Investigating the connections between multiculturalism minorities citizenship and democracy in North Africa this book argues that multiculturalism in this region and in the Arab world at large has reached a significant level in terms of scale and importance In the rest of the world there has been a trend albeit a contested one toward a greater recognition of minority rights The Arab world however particularly North Africa seems to be an exception to this trend as Arab states continue to promote highly unitary and homogenizing ideas of nationhood and state unity whilst discouraging or even forbidding minority political mobilization The central theoretical premise of this book is that North Africa is a multicultural region where culture is inherently linked to politics religion gender and society and a place where democracy is gradually taking root despite many political and economic hurdles Addressing the lacuna in literature on this issue this book opens new avenues of thought and research on diversity linking policy based on cultural difference to democratic culture and to social justice Multiculturalism and Democracy in North Africa will be of use to students and researchers with an interest in Sociology Cultural Studies and Political Science more broadly     Civil Resistance in the Arab Spring Adam Roberts,Michael J. Willis,Rory McCarthy,Timothy Garton Ash,2016-01-07 Civil resistance especially in the form of massive peaceful demonstrations was at the heart of the Arab Spring the chain of events in the Middle East and North Africa that erupted in December 2010 It won some notable victories popular movements helped to bring about the fall of authoritarian governments in Tunisia Egypt Libya and Yemen Yet these apparent triumphs of non violent action were followed by disasters wars in Syria anarchy in Libya and Yemen reversion to authoritarian rule in Egypt and counter revolution backed by external intervention in Bahrain Looming over these events was the enduring divide between the Sunni and Shi a branches of Islam Why did so much go wrong Was the problem the methods leadership and aims of the popular movements or the conditions of their societies In this book experts on these countries and on the techniques of civil resistance set the events in their historical social and political contexts They describe how governments and outside powers including the US and EU responded how Arab monarchies in Jordan and Morocco undertook to introduce reforms to avert revolution and why the Arab Spring failed to spark a Palestinian one They indicate how and why Tunisia remained precariously the country that experienced the most political change for the lowest cost in bloodshed This book provides a vivid illustrated account and rigorous scholarly analysis of the course and fate the strengths and the weaknesses of the Arab Spring The authors draw clear and challenging conclusions from these tumultuous events

Above all they show how civil resistance aiming at regime change is not enough building the institutions and the trust necessary for reforms to be implemented and democracy to develop is a more difficult but equally crucial task Break all the Borders Ariel I. Ahram,2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In Break all the Borders Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order Polity And Society In Contemporary North Africa I. William Zartman,William Mark Habeeb,I William Zartman,2019-06-04 In the twenty five years since the last comprehensive book on state and society in North Africa was published the nations of the Maghrib have undergone profound social political and economic changes The region has for example experienced one of the highest population growth rates in the world accompanied by a dramatic increase in migration t
