Over 15 years in the making an unprecedented one volume reference work Many of today's students and teachers of literature lacking a familiarity with the Bible are largely ignorant of how Biblical tradition has influenced and infused English literature through the centuries An invaluable research tool Contains nearly 800 encyclopedic articles written by a distinguished international roster of 190 contributors Three detailed annotated bibliographies Cross references throughout      *Second Catalogue of the Library of the Peabody Institute of the City of Baltimore* George Peabody Library, 1896      **Catalogue of the Sheffield Free Library, etc** SHEFFIELD. Free Public Libraries, 1858      **Catalogue of the Public Library of the City of Boston** Boston Public Library, 1854

In this way it provides an illuminating perspective and serves as a corrective to both Scotocentric and Anglocentric interpretations of events Previous studies have tended to concentrate on the resources of the main record repositories in London and Edinburgh and while these collections are indispensable for any interpretation of the period they do tend to highlight two types of politics more than others the political operations of the great landed estates and the high politics of the front benchers and they are not always fully representative of all parts of Scotland This book therefore has paid attention to a wide variety of source material in private hands and in local record centres to redress the balance and provide a more balanced picture This scholarly but very readable study will appeal to all those with an interest in the political history of the nineteenth and early twentieth centuries      Willis's Price Current, 1856

**Edinburgh Critical History of Nineteenth-Century Philosophy** Alison Stone, 2011-06-06 This volume begins with the rise of German Idealism and Romanticism traces the developments of naturalism positivism and materialism and of later

century attempts to combine idealist and naturalist modes of thought Written by a team of leading international scholars this crucial period of philosophy is examined from the novel perspective of themes and lines of thought which cut across authors disciplines and national boundaries This fresh approach will open up new ways for specialists and students to conceptualise the history of 19th century thought within philosophy politics religious studies and literature      **Catalogue of the Library of the Linonian Society, Yale College, November, 1846** ,1846
