Al Jazeera and Democratization Ezzeddine Abdelmoula, 2015-03-02 Al Jazeera and Democratization analyses the increasing role of the media in political transformations with a special emphasis on the Arab

world Taking the Al Jazeera media network as a case study the author explains how engaging the public and providing platforms for open debate and free expression contributed to the emergence of a new vibrant Arab public sphere The launch of Al Jazeera in 1996 was a significant event that led to subsequent changes both in Arab media and politics Among these changes the Arab spring is certainly the most remarkable This unprecedented phenomenon has already resulted in political change in a number of countries and is expected to generate a democratizing wave and reshape the face of the region The Arab spring provides us with a telling empirical example where the interplay between media and politics is manifest The public sphere that has emerged out of this newly communicative environment has undoubtedly played its role in the current political transformations In this context Arab democratization is no longer an abstract it is rather a developing process that needs our attention and requires concerted scholarly efforts Highly topical this book provides a fresh theoretical perspective on Arab democratization in light of the Arab Spring and is essential reading for researchers and students of Middle East Politics Media Studies and Democratization

Iran in an Emerging New World Order Ali Fathollah-Nejad, 2021-05-22. This book critically develops and discusses Iran's geopolitical imaginations and explores its various foreign policy schools of thought and their controversies. In doing so, the book covers Iran's foreign policy and international relations from 9/11 all the way to Rouhani's rise in late 2014. Accounting for both domestic and the international balance of power, the book theorizes the post-unipolar world order of the 2000s, dubbed imperial interolarity, examines Iran's relations with non-Western great powers in that era and offers a critique of the Rouhani doctrine and its economic and foreign policy visions. Forged in the fires and intense deliberations of a PhD undertaken at a most unique institution of higher learning in the world, Ali Fathollah Nejad has produced one of the most informative and evocative studies of Iran's foreign policy and international relations to date. Framed in a highly original theoretical approach, Ali's nuanced analysis, drawing on a lorry load of primary and secondary sources, details the process and context of policy in the Islamic Republic, thus producing an unrivalled and lasting account of modern Iran's worldview and the behaviour of this revolutionary state in a fast-changing world.

Anoush Ehteshami, Professor of International Relations, author of the forthcoming *The 100 Years War for Control of the Middle East* (Princeton University Press, 2021). The Arab Spring Jason Brownlee, Tarek Masoud, Andrew Reynolds, 2015-02-19 Several years after the Arab Spring began democracy remains elusive in the Middle East The Arab Spring that resides in the popular imagination is one in which a wave of mass mobilization swept the broader Middle East toppled dictators and cleared the way for democracy The reality is that few Arab countries have experienced anything of the sort While Tunisia made progress towards some type of constitutionally entrenched participatory rule the other countries that overthrew their rulers Egypt Yemen and Libya remain mired in authoritarianism and instability Elsewhere in the Arab world uprisings were suppressed subsided or never materialized The Arab Springs modest harvest cries out for explanation Why did regime change take place in only four Arab countries and why has democratic change proved so elusive in the countries that made attempts This book attempts to answer those questions First by accounting for the full range of variance from the absence or failure of uprisings in such places as Algeria and Saudi Arabia at one end to Tunisia's rocky but hopeful transition at the other Second by examining the deep historical and structure variables that determined the balance of power between incumbents and opposition Brownlee Masoud and Reynolds find that the success of domestic uprisings depended on the absence of a hereditary executive and a dearth of oil rents Structural factors also cast a shadow over the transition process Even when opposition forces toppled dictators prior levels of socioeconomic development and state strength shaped whether nascent democracy resurgent authoritarianism or unbridled civil war would follow

Civil Society and Women Activists in the Middle East Wanda Krause, 2012-05-27 In the Middle East and in Egypt in particular there has always been a tendency to accord complete supremacy to the authority and might of the state and to see society as a separate powerless entity However after the uprising of 2011 this assumption was turned on its head And it is the wide range of political activity beyond the remit of the official state where Wanda Krause locates a dynamic potential for political change from the bottom up She looks in particular at the influential role of women's private voluntary organisations in Egypt in shaping concepts of civil society and democracy Exploring both secular and Islamist organisations she offers a steadfast critique of the view that

Islamic women activists are insignificant backward or uncivil Krause's examination of women activists in Egypt today is vital for those interested in Middle East and Gender Studies as well as those researching the wider issues of civil society and democratisation Contemporary Arab Thought Elizabeth Suzanne Kassab, 2025-04-29 In the last third of the twentieth century the Arab intellectual and political scene polarized between totalizing doctrines nationalist Marxist and religious and radical critique Arab thinkers were reacting to the disenchanting experience of postindependence and a widespread sense of malaise as well as to authoritarianism intolerance injustice failed development and successive defeats by Israel The foundational account of these responses Contemporary Arab Thought illuminates the relationship between cultural and political critique in the work of major Arab thinkers Elizabeth Suzanne Kassab also connects Arab debates to the postcolonial issues of Latin America and Africa revealing the shared struggles of different regions Since its first publication in 2009 this book has stood as the foremost account of contemporary Arab debates on culture philosophy modernity tradition identity and liberation It is widely used in Middle Eastern studies courses and it has become a classic in the field of Arab intellectual history Contemporary Arab Thought now features an extensive new introduction that reconsiders post 1967 Arab intellectual history in light of the 2011 uprisings and the upheavals that have occurred over the intervening years Kassab critically reflects on the book's arguments and the responses it has provoked and she surveys the new preoccupations that have emerged in Arab debates since 2011 As crises again overtake the Middle East this landmark work continues to offer indispensable insight into the richness of contemporary Arab thought **Conspiracy Theories in the Arab World**
