Political Theory And The Displacement Of Politics Contestations Ser:

Political Theory and the Displacement of Politics Bonnie Honig, 2023-03-15 Political Theory and the Displacement of Politics originally published in 1993 has been called a founding text of agonism which treats political contestation not as a regrettably necessary way to correct political imperfections but as a necessary sometimes joyful feature of democratic life As Bonnie Honig writes in the preface to this thirtieth anniversary edition the agonism that informs this book is democratic it is committed to shared spaces and relational practices in which diverse groups and individuals set and reset the terms of living together as equals By rethinking the established relation between politics and political theory Honig argues that political theorists of opposing positions often treat political theory less as an exploration of politics than as a series of devices for its displacement She characterizes Kant Rawls and Sandel as virtue theorists of politics arguing that they rely on principles of right rationality community and law to protect their political theories from the conflict and uncertainty of political reality Drawing on Nietzsche and Arendt as well as Machiavelli and Derrida Honig instead explores an alternative politics of virtue which treats the disruptions of political order as valued sites of democratic freedom and individuality **The Palgrave**

Subject Guide to Books in Print, 1996 *Living Ethically, Acting Politically* Melissa A. Orlie, 2018-09-05 How can we conceive of freedom and responsibility when our power is limited and we are subject to the forces of society Melissa A. Orlie asks what it means to live responsibly amid historical harm and wrongdoing in the wake of slavery and genocide or in the face of severe resource asymmetries By connecting resistance to evil with reflections on the nature of power and political action Orlie reveals the daily ways people commonly exercise power inflict harm and show themselves capable of actions that transform both selves and the world Viewed in this context truly ethical political action may appear miraculous but could happen at any time Orlie asks what it means to live freely when advantages are distributed disproportionately according to race gender class culture and religion What do freedom and responsibility entail when for example creating a home for oneself implies social and economic commitments that render others homeless To address these questions Orlie links diverse intellectual concerns and constituencies in the social sciences and humanities offering original interpretations of Hannah Arendt Michel Foucault and Thomas Hobbes She compares their thinking to that of the seventeenth century Quakers who found political possibilities in the powers they called spirit in the world and in themselves Signifying Woman Linda Marie-Gelsomina Zerilli, 1994 1 Political Theory as a Signifying Practice 2 Une Maitresse Imperieuse Woman in Rousseau's Semiotic Republic The Maternal Voice The Field of Female Voice and Vision Making a Man The Semiotic Republic 3 The Furies of Hell Woman in Burke's French Revolution Terror and Delight Burke's Reflections as Self Reflections Breaking the Code The Furies at Versailles Postscript The Maternal Republic 4 The Innocent Magdalen Woman in Mill's Symbolic Economy Political Economy of the Body Political Economy of the Female Body Angel in the House Angel out of the House The Innocent Magdalen 5 Resignifying the Woman Question in Political Theory *Allegories of America* Frederick M. Dolan, 2018-03-15 *Allegories of America* offers a bold idea of what in terms of political theory it means to be American Beginning with the question What do we want from a theory of politics Dolan explores the metaphysics of American-ness and stops along the way to reflect on John Winthrop the Constitution 1950s behavioralist social science James Merrill and William Burroughs The pressing problem in Dolan's view is how to find a vocabulary for politics in the absence of European metaphysics American political thinkers he suggests might respond by approaching their own theories as allegories The postmodern dilemma of the loss of traditional absolutes would thus assume the status of a national mythology America's perennial identity crisis in the absence of a tradition establishing the legitimacy of its founding After examining the mid

Atlantic sermons of John Winthrop the spiritual founding father Dolan reflects on the authority of the Constitution and the Federalist He then takes on questions of representation in Cold War ideology focusing on the language of David Easton and other liberal political behaviorists as well as on cold War cinema and the coverage of international affairs by American journalists Additional discussions are inspired by Hannah Arendt s recasting of political theory in a narrative framework here Dolan considers two starkly contrasting postwar literary figures William S Burroughs and James Merrill both of whom have a troubled relationship to politics but nonetheless register an urgent need to articulate its dangers and opportunities Alongside Merrill s unraveling of the distinction between the serious and the fictive Dolan assesses the attempt in Arendt s On Revolution to reclaim fictional devices for political reflection

The Self at Liberty Duncan Ivison,1997 Duncan Ivison sets out to map a subtle but significant addition to the political discourse on liberty Using the political theories of Niccolo Machiavelli John Locke John Rawls and Michel Foucault Ivison contests one of the most famous distinctions in contemporary political philosophy Isaiah Berlin s distinction between negative and positive liberty Ivison explores a gradual shift of focus from the individual acting in accordance with authentic desires and beliefs to the actions of a self at liberty One indication of this shift is an increasing tendency in the early modern period to ally liberty closely with ideas of security and stability Liberal conceptions of government assume that the free choices of individuals are necessary to maintain a liberal political order with efficient markets and an effective rule of law But free choices and actions along with their intended and unintended effects risk undermining some of the conditions that make such an order possible Being free stands in contrast classically to being constrained by the intentional actions of other people Ivison presses the relation between intentions and constraints a bit further and investigates what happens to our conceptions of liberty when attention shifts from negative constraints to various enabling conditions

The Art of Being Free Mark Reinhardt,1997 Reinhardt treats the writings of Alexis de Tocqueville Karl Marx and Hannah Arendt as exemplary sources for an expansion of political possibility These writers indicate where and how the new spaces can be brought into being and they reveal acts of making space as some of the prime moments of politics Reinhardt s extended readings of these writers who have never previously been treated together are quite unlike the familiar understandings of their thought Taking liberties he brings the literary and political sensibility usually associated with postmodernism to a sympathetic if critical encounter with eminently modern thinkers The result is a strong and idiosyncratic book accessible and stylish which mixes acute readings of canonical thinkers with more practical applications and illustrations Reinhardt combines attention to textual detail and nuance with concern for contemporary politics discussing in an unusually inventive example the AIDS activist group ACT UP

Rethinking Generosity Romand Coles,1997 Should generosity and ethical behavior call for receptivity and reciprocity forward Political scientist Romand Coles explores how through understanding we might practice and inspire generosity with responsibility Drawing from readings of Kant Nietzsche and others Coles considers practical political implications particularly for relations

in civil society and among progressive social movements **International Bibliography of the Social Sciences** ,1994 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **United States** Thomas L. Dumm,1994 **Whitaker's Books in Print** ,1998 **Institutionalizing Agonistic Democracy** Edward C. Wingenbach,2011 Contemporary politics are characterised by the impossibility of agreement on fundamental values This book examines the institutional alternatives available to democratic politics to determine which institutional structures are most likely to produce a democratic social order in which agonistic citizenship might flourish *Postcolonial Legality: Law, Power and Politics in Zambia* Jeremy Gould,2023-03-24 This book interrogates the ideology and practices of liberal constitutionalism in the Zambian postcolony The analysis focuses on the residual political and governmental effects of an imperial form of power embodied in the person of the republican president termed here prerogativism Through systematic long term ethnographic engagement with Zambian constitutionalist activists lawyers judges and civic leaders the study examines how prerogativism has shaped the postcolonial political landscape and limited the possibilities of constitutional liberalism This is revealed in the ways that repeated efforts to reform the constitution have sidelined popular participation and thus failed to address the deep divide between a small elite stratum from which the constitutional activists are drawn and the marginalized masses of the population Along the way the study documents the intimate interpenetration of political and legal action and examines how prerogativism delimits the political engagements of elite actors Special attention is given to the reluctance of legal activists to engage with popular politics and to the conservative ethos that undermines efforts to pursue a jurisprudence of transformational constitutionalism in the findings of the Constitutional Court The work contributes to the rising interest in applying socio legal analysis to the statutory domain in postcolonial jurisdictions It offers a pioneering attempt to deconstruct the amorphous and ambivalent assemblage of ideas and practices related to constitutionalism through detailed ethnographic interrogation It will appeal to scholars students and practitioners with an interest in theorizing challenges to political liberalism in postcolonial contexts as well as in rethinking the methodological toolbox of socio legal analysis *Institutionalizing Agonistic Democracy* Ed Wingenbach,2016-05-23 The first book length study of agonism as a mature account of democratic politics Institutionalizing Agonistic Democracy provides a lucid overview of agonistic democratic theories and demonstrates the viability of this approach for institutional politics Situating agonistic democracy within and against debates about radical democracy foundationalism liberal democracy and pluralism Institutionalizing Agonistic Democracy engages the texts of Mouffe Connolly Ranciere Tully Honig Owen and others to fully map the contours of agonistic democratic theories Organizing this diverse literature into a coherent typology enables sophisticated analysis of the assumptions distinctions and aspirations of the often conflicting theoretical positions gathered within the constellation of agonistic democratic theory Using this framework to explore the concrete institutional possibilities appropriate to agonistic

democracy Wingenbach argues that a modified version of Rawlsian political liberalism describes the institutional conditions most likely to sustain agonistic political practices Once shorn of metaphysical commitments and detached from aspirations to consensus political liberalism offers a contingent and historically viable framework within which agonistic contestation can occur Such a reinterpretation of Rawls produces not the sublimation of agonism but a transformation of liberalism so that it more adequately accommodates the deep pluralism of the post foundational condition American Book Publishing Record Cumulative 1993 R R Bowker Publishing,1994-03 Cited in BCL3 Sheehy and Walford Compiled from the 12 monthly issues of the ABPR this edition of the annual cumulation lists by Dewey sequence some 41 700 titles for books published or distributed in the US Entry information is derived from MARC II tapes and books submitted to R R Bowker an *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,2000 List of members in v 1 *The Politics of Reconciliation in Multicultural Societies* Will Kymlicka,Bashir Bashir,2008 Most countries around the world exhibit a long history of exclusion and discrimination directed against ethnic racial national religious or ideological groups The underlying justifications for these forms of exclusion have been increasingly discredited by the post war human rights revolution decolonization and by contemporary norms of liberal democratic constitutionalism with their commitment to equal rights and non discrimination However even as these older practices and ideologies of exclusion are discredited and repudiated they continue to have enduring effects The legacies of exclusion can still be seen in a wide range of social attitudes cultural practices economic and demographic patterns and institutional rules that obstruct efforts to build genuinely inclusive societies of equal citizens Finding ways to overcome this problem is a major challenge facing virtually every society around the world *The Politics of Reconciliation in Multicultural Societies* focuses on two parallel intellectual and political movements that have arisen to address this challenge the politics of reconciliation with its focus on reparations truth telling and healing amongst former adversaries and the politics of difference with its focus on the recognition and empowerment of minorities in multicultural societies Both the politics of reconciliation and the politics of difference are having a profound impact on the theory and practice of democracy around the world but remarkably little has been written about the relationship between them This book aims to fill that gap Drawing on both theoretical analysis and case studies from around the world the authors explore how the politics of reconciliation and the politics of difference often interact in mutually supportive ways as reconciliation leads to more multicultural conceptions of citizenship But there are also important ways in which the two may compete in their aims and methods *The Politics of Reconciliation in Multicultural Societies* is the first attempt to systematically explore these areas of potential convergence and divergence
