Shoemaker, Timothy Vos, 2009-09-10 Gatekeeping is one of the media's central roles in public life people rely on mediators to transform information about billions of events into a manageable number of media messages This process determines not only which information is selected but also what the content and nature of messages such as news will be Gatekeeping Theory describes the powerful process through which events are covered by the mass media explaining how and why certain information either passes through gates or is closed off from media attention This book is essential for understanding how even single seemingly trivial gatekeeping decisions can come together to shape an audience's view of the world and illustrates what is at stake in the process Myth and Reality of the Legitimacy Crisis Carolien van Ham, Jacques Thomassen, Kees Aarts, Rudy Andeweg, 2017-07-14 Theories about the decline of legitimacy or a legitimacy crisis are as old as democracy itself Yet representative democracy still exists and the empirical evidence for a secular decline of political support in established democracies is limited questionable or absent This lack of conclusive evidence calls into question existing explanatory theories of legitimacy decline How valid are theories of modernization globalization media malaise social capital and party decline if the predicted outcome i.e. secular decline of political support does not occur And which new explanations can account for the empirical variation in political support in established democracies This book systematically evaluates the empirical evidence for legitimacy decline in established democracies the explanatory power of theories of legitimacy decline and promises new routes in investigating and assessing political legitimacy In doing so the book provides a broad and thorough reflection on the state of the art of legitimacy research and outlines a new research agenda on legitimacy *The Handbook of Political Sociology* Thomas Janoski, Robert R. **Popular Newspapers, the Labour Party and British Politics** James Thomas, 2007-05-07 IT S THE SUN WOT WON IT was the famous headline claim of Britain s most popular newspaper following the Conservative party s victory over Labour in the 1992 general election The headline referred to a virulent press campaign against Neil Kinnock s Labour party and dramatically highlighted one of the chief features of British politics during the twentieth century the conflict between a socialist Labour party and a capitalist popular press Labour s frequent complaints of the political and electoral unfairness of newspaper bias meant that some commentators considered that this dispute had a heritage as old as the party itself Others including the Labour leadership at the time argued that despite past tensions the 1992 election marked the culmination of an unprecedented campaign of vilification against the party Popular Newspapers the Labour Party and British Politics assesses these competing claims looking not only at 1992 but both back and forward to examine the continuities and changes in newspaper coverage of British politics and the Labour party over the twentieth century The book explores whether the popular press has lived up to its claim of being a democratic fourth estate or has merely as Labour politicians have argued been a powerful fifth column distorting the democratic process Drawing on a range of previously unexamined sources this book offers the first original and comprehensive history of a fascinating aspect of British politics from Beaverbrook to Blair James Thomas is a lecturer at the Cardiff School of Journalism Media and Cultural Studies at Cardiff University and has published articles and essays exploring the relationship between the popular press and British politics

each explore the following Whether parties or voters are approaching one another using consumerist perspectives How this can be mapped empirically through specific examples or case studies The extent to which consumer behaviour models and perspectives help us understand voter or party behaviour

**Media and the Experience of Social Change** Tim Markham, 2017-07-28 For centuries scholars have fretted about the gulf that exists between the enormity of historical change and the banality of people's everyday lives This is said to be exacerbated in our media saturated age immersed as we have become in an endless stream of sensations and distractions In response media theorists and practitioners alike try to come up with new ways of breaking through people's complacency and waking them up to the reality or what's going on out there Drawing on both philosophy and an investigation of what people actually do with media this book takes aim at that conventional wisdom and opens up new ways of thinking about media and the way we experience change For politics journalism activism and humanitarianism the upshot is that we shouldn't be trying to provoke moments of revelation amongst publics and audiences but to understand what is really at stake in the way the present endlessly unfolds in everyday life

*The Personalization of Politics in the European Union* Katjana Gattermann, 2022 The personalization of politics whereby politicians increasingly become the main focus of political processes is a prominent phenomenon in modern democracies that has received considerable scholarly attention in national politics However little is known about the scope causes and consequences of personalization in European Union politics although recent institutional and political developments suggest that such a trend is underway This book sheds light onto this phenomenon by taking a comprehensive approach to understanding four key dimensions of personalization concerning institutions media politics and citizens In doing so it relies on an innovative longitudinal and cross country comparative research design and applies multiple methods It argues that institutional

personalization is a necessary but not sufficient pre condition for media to increasingly report about individual politicians It shows that media personalization fluctuates across country and over time while Members of the European Parliament increasingly engage in personalized legislative and communicative behaviour These developments are conditional upon domestic media and electoral systems and have limited effects on citizen attitudes and political awareness The book concludes that as additional political actors gain formal individual responsibilities European Union politics also becomes more complex to disentangle Ultimately institutions provide more effective cues than individual politicians both for media to inform citizens about European Union politics and for the latter to acquire information that may help them understand and evaluate European Union politics These findings have important implications for the future of personalized politics in the European Union

*The Blair Effect 2001-5* Anthony Seldon, Dennis Kavanagh, 2005-09-29 Tony Blair's strong start to his third term with his role in capturing the Olympic Games for Britain his statesman like handling of the aftermath of the terrorist attacks on London his promise of a new start to the European Union and his leadership of the G8 summit at Gleneagles has brought his relatively lacklustre second term into sharp relief The second term should have been the time when New Labour fulfilled its manifesto promises So what changed between 2001 and 2005 and what was achieved How far was Blair himself responsible and what was Gordon Brown's influence What was the impact of the Iraq war And what of Blair's policy towards Europe Anthony Seldon and Dennis Kavanagh gather together leading academics and journalists to provide an authoritative assessment of Blair's second term including a review of New Labour in government from 1997 to the present
