**Political Theory** Joseph Losco, Leonard A. Williams, 1992      **The Liberalisation of the Islamists in Turkey During 1990's: The Debates Around the Medina Document and Civil Society Project** Ünal Gündoğan, 2021-08-26 Dr Unal Giindoan

The Liberalisation of the Islamists in Turkey During 1990 s The Debates Around the Medina Document and Civil Society Project This book takes snapshots from the venture of the Islamic Movement during second half of the 1990 s in Turkey It was the Civil Society Project as proposed by Ali Bulac a prominent intellectual which claimed to establish philosophical basis for a political and social restructuring of Turkey depending upon the basic premises of the Medina Document which was signed among Muslims Jews and Pagans of Medina City just after the Prophet Muhammed s migration in 622 The Project was a break from the tradi tional understanding of Islamic politics both in Turkey and in the Muslim world It was because of its focus on pluralism multi culturalism democracy human rights and many other liberal assumptions This was a turning point in Turkish politics since the discussions created a liberal atmosphere among Islamist leftist and rightists which at the end resulted in the mass acceptance of Islamic political parties by the voters since midst 1990 s The rise of first Refah Party and then AK Party owe much to this new understanding

*Libraries, Classrooms, and the Interests of Democracy* John Buschman, 2012-07-30 Library marketing and advertising in schools are now very widespread practices Since libraries and schools have been strongly linked to economic performance adopting marketing and advertising techniques into them is often seen as a natural extension of that linkage But should that be the case John Buschman argues that as we shape and guide our educative institutions we should carefully consider the consequences In *Libraries Classrooms and the Interests of Democracy* Marking the Limits of Neoliberalism Dr Buschman details the connections between our educative institutions and democracy and the resources within democratic theory reflecting on the tensions between marketing advertising consumption and democracy Drawing on wide scholarship to explore some of the history of democratic theory and its intertwinements with capitalism the author helps the reader think about how democracies can deal with the challenges of this current historical phase The complex arguments of de Tocqueville Dewey Marx and many others help clarify how the market has pierced classrooms and libraries with advertising and marketing and why this is of concern in the interests of democracy In this volume Buschman provides a history of marketing and advertising and their entanglements with democracy education and libraries He then engages Democratic Theory and the framework it provides to critique neoliberalism s influences A final chapter traces the trajectory of neoliberalism and educative institutions on our democracy Throughout the book makes clear that issues concerning public educative institutions in a democracy are political A provocative and engaging book *Libraries Classrooms and the Interests of Democracy* should be required reading for anyone interested in the challenges facing libraries today

**Mestizo Democracy** John Francis Burke, 2003-11-03 It can come as no surprise that the ethnic makeup of the American population is rapidly changing That there are political repercussions from

these changes is also self evident How the changes can must and should alter our very understanding of democracy though may not be obvious Political theorist John Burke addresses these issues by offering a mestizo theory of democracy and tracing its implications for public policy The challenge before the United States in the coming century Burke posits will be to articulate a politics that neither renders cultures utterly autonomous from each other nor culminates in their homogeneous assimilation Fortuitously or ironically the way to do this comes from the very culture that is now necessitating the change Mestizo is a term from the Mexican socio political experience It means mixture and implies a particular kind of mixture that has resulted in a blend of indigenous African and Spanish genes and cultures in Latin America This mixture is not a melting pot experience where all eventually become assimilated rather it is a mixture in which the influences of the different cultures remain identifiable but not static They all evolve through interaction with the others and the resulting larger culture also evolves as the parts do Mestizaje the collective noun form is thus process more than condition John Burke analyzes both American democratic theory and multiculturalism within political theology to develop a model for cultivating a democratic political community that can deal constructively with its cultural diversity He applies this new model to a number of important policy issues official language s voting and participation equal employment opportunity housing and free trade He then presents an intensive case study based on a parish multicultural committee and choir in which he has been a participant to show how the engaged dialogue of mestizaje might work and what pitfalls await it Burke concludes that in the United States we are becoming mestizo whether we know it or not and whether we like it or not By embracing the communitarian but non assimilationist stance of intentional mestizaje we can forge a future together that will be not only greater than the sum of its parts but also freer and more just than its past
