Prospects For Democracy In Asia:

Prospects for Democracy in Asia Tatu Vanhanen, 1998 **Discussion Papers / Democracy in Asia and the Pacific Outlook 2023**, 2023-02-09 On 5 6 December 2022 International IDEA gathered 30 leading experts on democracy anti corruption and human rights at the inaugural Democracy in Asia and the Pacific Outlook Forum Representing 23 institutions and organizations from 12 countries attendees discussed key trends in democracy in the Asia and the Pacific region over the course of seven topical sessions The sessions were previously defined by a round of consultations and interviews with several experts on democracy and human rights The sessions on human rights regional cooperation climate change China disinformation electoral authoritarianism and militarization and political finance attempted to take stock of the current state of democracy in the region and forecast the determining factors in the year to come **The Prospects for a Regional Human Rights Mechanism in East Asia (RLE Modern East and South East Asia)** Hidetoshi Hashimoto, 2015-05-15 Regional inter governmental human rights organizations have been in operation for sometime in Europe the Americas and Africa These regional human rights mechanisms have proven to be useful and effective in comparison to the global human rights mechanisms available at the United Nations The purpose of this study first published in 2004 is to investigate the possibility of establishing a regional inter governmental human rights mechanism in East Asia with a focus on the contributions of nongovernmental organizations NGOs to such a development Political Oppositions in Industrialising Asia Garry Rodan, 2013-04-15 Rodan dissects the extent of political oppositions in Asia and analyzes the nature of new social movements outside institutional party politics which are contesting the exercise of state power The book provides nine in depth case studies **Democratic Development in East Asia** Becky Shelley, 2004-12-17 This book presents a coherent and comprehensive analysis of the international dimension of democratization in East Asia Globalizing Central Asia Marlene Laruelle, Sebastien Peyrouse, 2015-02-12 In this global era Central Asia must be understood in both geo economic and geopolitical terms The region s natural resources compel the attention of rivalrous great powers and ambitious internal factions The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty Russia and China dominate the horizon with other global players close behind meanwhile neighboring countries are fractious and unstable with real potential for contagion This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption **Prospects for Peace in South Asia** Rafiq Dossani, Henry S. Rowen, 2005 Dossani s book addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 **Korean Security in a Changing East Asia** Terence Roehrig, Jungmin Seo, Uk Heo, 2007-08-30 Since its partition in the 1950s the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses and the recent test of a nuclear weapon by the North Korean regime has heightened

tensions across the world This study draws upon contributions from a diverse array of experts who offer their perspectives on the region s complex network of alliances and hostilities The authors discuss the future of the region the potential for military conflict and a new arms race and the ways to maintain peace and stability Since its partition in the 1950s the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses while the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world Japan feeling increasingly threatened by the North Korean regime and China s extravagant military expenditures has begun questioning Article IX in its Constitution that renounces war and the maintenance of armed forces Its neighbors still haunted by Japanese atrocities during World War II are fearful of a new nuclear arms race in the region The United States for its part has adopted unprecedented hard line policies in response to 9 11 going so far as to condemn North Korea as part of an axis of evil It has strengthened its alliance with Japan and alienated its long time strategic partner South Korea Add to this the economic entanglements of each of these countries both with each other and with the rest of the world and the regional security issues become even more paramount This study makes sense of these complex alliances and frictions and offers an array of perspectives on the future of the region the potential for military conflict and a new arms race and the ways to maintain peace and stability Topics include big power rivalries South Korea s sunshine policy anti Americanism and emerging nationalisms

Natural Allies?: Regional Security in Asia and Prospects for Indo-American Strategic Cooperation, 2005 Indo American relations increasingly comprise expanded strategic and economic ties India s government led by Prime Minister Mamonhan Singh has stated it intention to intensify these ties with America Clearly the Bush administration agrees For example President Bush has indicated his intention to sustain the gains achieved since 2001 as a priority Prime Minister Singh has invited the President to India President Bush has indicated his intention to go there leading Indian analysts to expect that What we are going to see is a consolidation of Indo U S ties on a range of strategic issues We may see a greater emphasis on economic ones as well The Bush administration is prepared to make a major offer of arms sales to India This deal has many repercussion across the entire range of Indo American relationships and of India s relationships with a host of important foreign governments like Russia China Pakistan and Israel Undoubtedly a reinforcement of the economic foundations of bilateral amity would be desirable for many reasons This book length monograph seeks to illuminate India s rising power and capabilities with regard to the key regions on its periphery the Persian Gulf Central Asia and South East Asia The author also considers the major issues pertaining to India s bilateral defense agenda with the United States By revealing the dimensions of India s growing capabilities and interests he provides a strategic rationale developing the U S India partnership further
