Psychic Politics Jane Roberts, 1999-11 The ego rises from the civilization of the psyche just as a leader rises from the masses of the people appointed chosen or taking control according to an inner politics first existing within the greater inner mind Jane Roberts Psychic Politics Psychic Politics is Jane Roberts's search for the rules that govern our inner life the links between daily subjective experience and the greater Reality that nourishes all of our existence This is not only her most challenging book but a very personal investigation in which the sources of dream and myth and the creative wellsprings of sex and spirituality appear in their full and breathtaking relationship to daily life And here for the first time Roberts introduces her theories of counterparts the library and the codicils concepts that are key to understanding her entire body of work

The Politics of Virtue John Milbank, Adrian Pabst, 2016-08-22 Contemporary politics is dominated by a liberal creed that champions negative liberty and individual happiness This creed undergirds positions on both the right and the left free market capitalism state bureaucracy and individualism in social life The triumph of liberalism has had the effect of subordinating human association and the common good to narrow self interest and short term utility By contrast post liberalism promotes individual fulfilment and mutual flourishing based on shared goals that have more substantive content than the formal abstractions of liberal law and contract and yet are also adaptable to different cultural and local traditions In this important book John Milbank and Adrian Pabst apply this analysis to the economy politics culture and international affairs In each case having diagnosed the crisis of liberalism they propose post liberal alternatives notably new concepts and fresh policy ideas They demonstrate that amid the current crisis post liberalism is a programme that could define a new politics of virtue and the common good

Popular Tyranny Kathryn A. Morgan, 2013-10-11 The nature of authority and rulership was a central concern in ancient Greece where the figure of the king or tyrant and the sovereignty associated with him remained a powerful focus of political and philosophical debate even as Classical Athens developed the world's first democracy This collection of essays examines the extraordinary role that the concept of tyranny played in the cultural and political imagination of Archaic and Classical Greece through the interdisciplinary perspectives provided by internationally known archaeologists literary critics and historians The book ranges historically from the Bronze and early Iron Age to the political theorists and commentators of the middle of the fourth century B C and generically across tragedy comedy historiography and philosophy While offering individual and sometimes differing perspectives the essays tackle several common themes the construction of authority and of constitutional models the importance of religion and ritual the crucial role of wealth and the autonomy of the individual Moreover the essays with an Athenian focus shed new light on the vexed question of whether it was possible for Athenians to think of themselves as tyrannical in any way As a whole the collection presents a nuanced survey of how competing ideologies and desires operating through the complex associations of the image of tyranny struggled for predominance in ancient cities and their citizens

The Myth of the Great Ending Joseph M.

Felser,2025-09-12 From Christian believers in the Apocalypse and the Rapture to New Age enthusiasts of prophecies concerning the year 2012 Doomsday lore has been a part of culture a myth that colors how we perceive the world Why do we remain obsessed with Doomsday myths even when they fail to materialize What if we haven't recognized the true message of these myths Blending history psychology metaphysics and story philosopher and author Joseph Felser explores the spiritual questions raised by these enduring myths Along the way he consults the work of Joseph Campbell Carl Jung Marie Louise von Franz Black Elk Wovoka Itzhak Bentov Jane Roberts Seth Hermann Hesse Ingo Swann David Bohm Fred Alan Wolf J Allen Boone William James and Robert Monroe through ever widening circles of understanding Felser suggests that our obsession with The End of the World hides a repressed healthy longing for reconciliation with our inner and outer worlds with nature and our own natural spirituality He urges us to recognize and act upon that longing When we begin to listen to nature's voice and pay heed to our own dreams including visions intuitions and instinctive promptings the greatest revolution in all history will unfold We can create a future of our own choosing a beginning rather than an ending **Seth Speaks (A Seth Book)**

Jane Roberts,2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay *Dreams, Evolution, and Value Fulfillment, Vol 1* Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of

Dreams Evolution and Value Fulfillment Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth's system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth
