Questions of Time and Tense Robin Le Poidevin, 1998 This book brings together new essays on a major focus of debate in contemporary metaphysics does time really pass or is our ordinary experience of time as consisting of past present and future an illusion The international contributors broaden this debate by demonstrating the importance of questions about the nature of time for philosophical issues in ethics aesthetics psychology science religion and language **Karl Barth's Critically Realistic Dialectical Theology** Bruce L. McCormack, 1997 McCormack is master of this voluminous material He is scrupulously at home in the intricate dramatic background of Swiss socialist politics The result is a masterly study often as compelling as its theme George Steiner Times Literary Supplement This meticulous and definitive study supersedes most previous interpretations Colin Gunton Theological Book Review it should quickly attain classic status It is an exceptionally fine and erudite piece of work The results of this painstaking attention to detail are truly ground breaking This is a major intellectual achievement an interpretative act of great courage and Barth studies will never look the same Graham Ward Expository Times This book is a new major intellectual biography of perhaps the most influential theologian of the twentieth century Karl Barth It offers the first full scale revision of the well known theologian Hans Urs Balthasar s seminal interpretation of Barth which was first published in 1951 Drawing on a wealth of material much of it unpublished during

Barth's lifetime as well as a thorough acquaintance with the best of recent German scholarship Professor McCormack demonstrates that the fundamental decision which would control the whole of Barth's development the turn to a new critically realistic form of theological objectivism was already made during the years in which Barth was at work on his first commentary on Romans Professor McCormack further argues that the most significant subsequent decisions both material and methodological were made in Barth's Gottingen Dogmatics of 1924-5 and not later in the 1931 book on Anselm as has often been alleged Finally he seeks to show that von Balthasar's description of a turn from dialectic to analogy which provided the foundation for the neo orthodox reading of Barth in the English speaking world fails to take seriously enough the extent to which dialectic remained a constitutive feature of Barth's outlook in the Church Dogmatics This unique and important work provides not simply a fresh interpretation of Barth's development but also a new paradigm for understanding the whole of Barth's theology
