Researching Real-World Problems Zina O'Leary, 2005-11-04 This is the perfect book for any student new to Research Methods. It is brilliantly written, witty and always easy to understand. Taking as her starting point the need for students to conduct research for themselves in the real world, Zina O'Leary guides those new to research through the whys and how-tos of the entire research process. Always student-focused, this book offers a hands-on and practical guide to the research process from the initial process of coming up with a good question via methods of gathering information through to the writing process itself. *Researching Real-World Problems* makes the entire research process a meaningful experience. Provides a jargon-busting hands-on guide to the entire research process. Is illustrated throughout with real-life examples. Speaks directly to the needs of the new researcher. Locates the researcher and research process at heart of a complex web of social structures. O'Leary draws her examples from the full range of the Social Sciences and this is the perfect text for any student in Health Education or Applied Social Science.

Real World Research Colin Robson, 2016 *Criminological Research for Beginners* Laura Caulfield, Jane Hill, 2014-04-03 *Criminological Research for Beginners* is a comprehensive and engaging guide to research methods in Criminology. Written specifically for undergraduate students and novice researchers, this book has been designed as a practical guide to planning, conducting and reporting research in the subject. By first inviting readers to consider the importance of criminological research, the book places related methodology firmly in the context of students' broader study of Criminology before moving on to provide a detailed guide to the practical processes of research. It is common for Criminology undergraduates to feel intimidated at the prospect of conducting their own research and these students typically struggle to see the relevance of research methods to their own studies. This book speaks directly to the needs of such students and includes contemporary examples and case studies that bring a topic that is often thought of as dry to life, providing a thorough and accessible practical guide that students can return to at each stage of their research all the way through to their dissertation. This book covers an examination of the theoretical, political and ethical debates in criminological research, a complete guide to planning criminological research, assisting student researchers in identifying their research questions, choosing their research methods and critiquing the available literature, guidance on the practicalities and processes of collecting data, a discussion of the process of analysing data and writing up research. Including an extensive glossary and an integrated companion website with extra examples, exercises and videos to further develop students' understanding, this book is essential reading for any undergraduate on a Criminological Research Methods course or for anyone in need of practical guidance on any or every of the various stages involved in conducting thorough and effective criminological research.
